UGREEN CM251 USB-C Multifunction Adapter

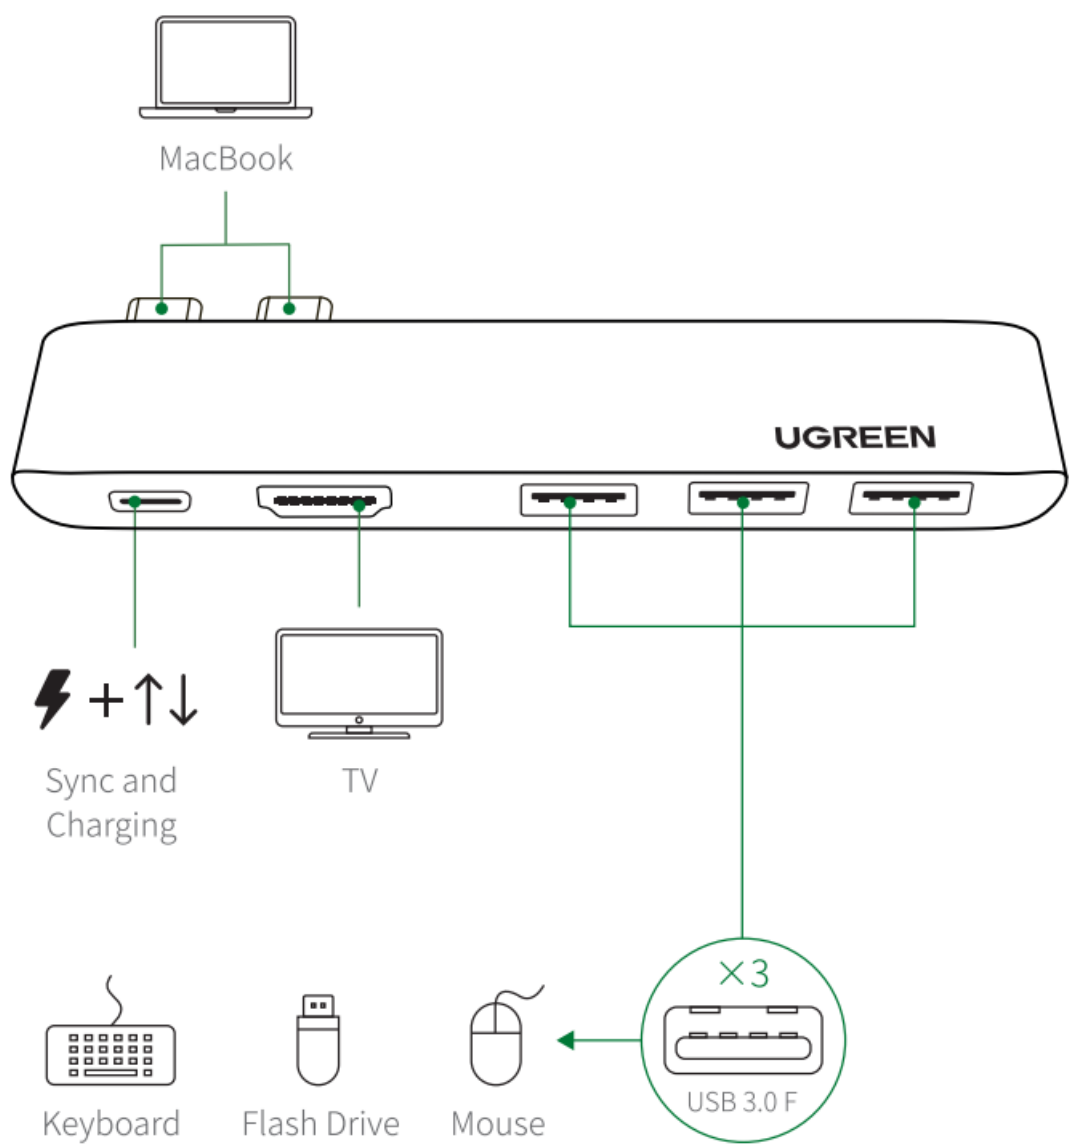

Product Details

1. EN: USB-C M
2. EN: USB-CF
3. EN: HDMI Port
4. EN: USB 3.0 F

How It Works

Specifications

Input	2×USB-C M
Output	3×USB 3.0 A F, 1×USB-C F, 1×HDMI Port
USB Specification	Compliants with USB 3.0/ 2.0/ 1.1, and with transfer rates up to 5Gbps
USB-C Port	Supports PD fast-charge protocol, video functions, and the rate of data transfer up to 40Gbps
HDMI Port	Supports resolutions up to 4K×2K/30Hz
Dimensions	L112×W28×H8.5 (mm)

Notes

- 1. This product only support the MacBook Air and MacBook Pro with two or four Thunderbolt3 (USB-C) ports, and DOES NOT support Mac Book models or other laptops with a single USB-C port.
- 2. We would assume the case would need to be removed to guarantee a stable connection with the MacBook.
- 3. For a stable connection, it's recommended to provide USB-C pass-through charging to the hub when using power-hungry USB devices, such as external hard drives, printers, etc.
- 4. Do not expose this unit to a moist environment
