UGREEN DXP480T Plus Network Storage unit promises Extremely High Data Transfer

Product Specifications:

- Operation Frequency:

- 2.4G Wi-Fi: 2400-2483.5MHz, 20dBm Max
- 5G Wi-Fi: 5150MHz-5250MHz, 23dBm Max; 5725MHz-5875MHz, 13.98dBm Max
- 6G Wi-Fi: 5925MHz-6425MHz, 23dBm Max
- Environment Temperature: 0-40°C
- Compliance: EU Declaration of Conformity, GB Declaration of Conformity

Product Usage Instructions

RF Exposure Information:

The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of 20cm between the device and the human body. To maintain compliance with RF exposure requirements, ensure that there is a 20cm distance between the device and the human body.

Operation Guidelines:

- The device for operation in the Band 5150-5250 MHz and 5925-6425MHz is only for indoor use to reduce potential harmful interference to co-channel mobile satellite systems.
- This product can be used across EU member states and the UK.

Important Information:

Dispose of the product correctly by taking it to designated collection points to prevent negative effects on human health and the environment. Contact your local authority for details on your nearest collection point.

Frequently Asked Questions (FAQ):

1. Q: Can this product be used outdoors?

A: The device for operation in specific frequency bands is recommended for indoor use to avoid interference with mobile satellite systems.

2. Q: What should I do with the product at the end of its life cycle?

A: Please dispose of the product at designated collection points for proper treatment, recovery, and recycling. Contact your local authority for more information on disposal methods.

EU/GB Mark Warning

RF exposure information:

The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of 20cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body.

Operation frequency(Max power)

- 2.4G Wi-Fi:
2400-2483.5MHz 20dBm Max;

- 5G Wi-Fi:
5150MHz-5250MHz 23dBm Max;
5725MHz-5875MHz 13.98dBm Max;
- 6G Wi-Fi:
5925MHz-6425MHz 23dBm Max
- Environment Temperature: 0°C-40°C

The device for operation in the Band 5150-5250 MHz and 5925-6425MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

This product can be used across EU member states.

This product can be used across UK.

EU Declaration of Conformity

Hereby, Ugreen Group Limited declares that the product is in compliance with Directive 2014/30/EU & 2011/65/EU. Learn more about the EU Declaration of Conformity from the following Internet address:
<https://www.ugreen.com/download/>

Ugreen Group Limited

- **Add:** Ugreen Building, Longcheng Industrial Park, Longguanxi Road, Longhua, Shenzhen, China
- **EU REP:** Ugreen Group GmbH
- **Abdd:** Mannheimer Str. 13, 30880 Laatzen, Germany

GB Declaration of Conformity

Hereby, Ugreen Group Limited declares that the product is in compliance with Directive UK Radio Equipment Regulations(SI 2017 No.1206)& The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012 (SI 2012 No.3032). Learn more about the GB Declaration of Conformity from the following Internet address: <https://www.ugreen.com/download/>
Ugreen Group Limited

- Add: Ugreen Building, Longcheng Industrial Park, Longguanxi Road, Longhua, Shenzhen, China
- UK REP: Acumen International Business Consultancy Limited

Important WEEE Information

■ This symbol on the product(s) and / or accompanying documents indicates that, under the new Directive 2012/19/EU on waste electrical and electronic equipment (WEEE), product(s) used electrical and electronic equipment (WEEE) should not be mixed with general household waste. For proper treatment, recovery and recycling, please take this product(s) to designated collection points where it will be accepted free of charge. Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling.

Please contact your local authority for further details of your nearest designated collection point. Penalties may be applicable for incorrect disposal of this waste, in accordance with your national legislation. For professional users in the European Union If you wish to discard electrical and electronic equipment (EEE), please contact your dealer or supplier for further information. For disposal in countries outside of the European Union This symbol is only valid in the European Union (EU). If you wish to discard this product please contact your local authorities or dealer and ask for the correct method of disposal.

FCC Statement

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with minimum distance of 20cm between the radiator and your body.

FCC Indoor Client 6XD statement

1. FCC regulations restrict the operation of this device to indoor use only.
2. The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
3. The device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
4. Transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.
5. Prohibited for control of or communications with unmanned aircraft systems, including drones.
