Body: ABS plastic Built-in child protection.

TAKING CARE OF THE NATURAL ENVIRONMENT CLEANLINESS

- The product and its components are not harmful to the environment.
- Please dispose the package elements separately in containers for the corresponding material.
- Please dispose the broken product separately in containers for out of usage electrical equipment.

SAFETY INSTRUCTIONS

- Do not try to disassemble the product.
- Do not try to repair the product.
- Do not use in moist and dusty areas.
- Do not use in open areas and in adverse weather conditions.
- Not suitable for professional purposes.
- Do not exceed the specified maximum power.
- Check cable insulation regularly for faults.
- If there is any suspicion that safe operation of the extension socket is no longer possible, then it should no longer be used.
- Connect only to a Shuko-type outlet that is grounded ("earthed").
- Only connect to a functional electrical installation complying with current regulations.
- If the power cord is defective, it must be replaced by the manufacturer, its authorized representative or a technically qualified specialist to prevent accidents and damage.

- If, during operation, heat generation is noticed on individual parts of the extension socket, then stop its operation.
- To be used according to the technical instructions on the packaging.
