ULTRAREST®

ULTRAREST INTEGRATE MX2 Arrow Rest

PRODUCT INFORMATION

The Elite Ultrarest Integrate MX2 is engineered for precision and reliability, offering a full-containment drop-away design that ensures your arrow stays securely in place. Featuring Smart Rest Technology™, it automatically knows when to drop away for a shot while keeping your arrow contained during a slow let-down. The launcher auto-rotates to 90° at full draw and guarantees total fletching clearance for the most accurate shots, even at speeds over 400 fps. Built with a strong hold and better center balance, the Ultrarest Integrate MX2 delivers peak performance for serious archers.

FEATURES

- Full-containment drop-away design for arrow security
- Smart Rest Technology™ for reliable performance
- Auto-rotating launcher for consistent 90° positioning at full draw
- Total fletching clearance for accuracy at high speeds
- Stronger hold and improved center balance
- Suitable for speeds over 400 fps
- Comes in Left and Right Hand Options

OVERVIEW

*Color dampers sold separately.

HOW IT WORKS

FULL CONTAINMENT DROP-AWAY ARROW REST

• EASY LOAD AND LOCK

With the convenient thumb lever, quickly load and cock the arrow into the capture position. The arrow is now fully contained.

• ARROWS NEVER FALL OFF

With Smart Rest Technology™ the ULTRAREST knows to drop away ONLY when fired, not at slow let-down. Even if you have to let down the draw, the arrow remains contained.

- **AUTO ROTATE**

When the bow is drawn, the launcher auto rotates to 90° and VDT™ is activated. Only when the bow is fired will the launcher drop out of the way.

- **TOTAL FLETCHING CLEARANCE**

With the launcher falls, LDT locks launcher at 0°. This guarantees no bounce back and total fletching clearance for the most accurate shot possible even at speeds over 400 fps.

WARRANTY

LIMITED LIFETIME WARRANTY.

MADE IN THE USA
