Unbranded T40 Bluetooth Audio Receiver

Product Information

Specifications

- **Compliance:** Part 15 of FCC Rules
- **RF Exposure:** Meets general RF exposure requirements
- **Usage:** Portable exposure condition without restriction
- **Co-location:** Must not be operating with any other antenna or transmitter

Product Usage Instructions

Warnings and Compliance

This device complies with Part 15 of the FCC Rules. Please ensure the following:

1. Do not cause harmful interference.
2. Accept any interference received.
3. Consult a dealer or experienced technician for assistance.
4. Avoid making changes or modifications without approval.

RF Exposure

- The device meets general RF exposure requirements, allowing for portable use without restrictions.

Co-location

- Avoid operating the device with any other antenna or transmitter to prevent interference.

FAQ

- **Q:** Can this device be used in areas with high RF exposure?
- **A:** The device has been evaluated to meet general RF exposure requirements, making it suitable for use in

portable exposure conditions without restrictions.

- **Q:** What should I do if I encounter interference while using the device?
- **A:** Ensure that the device does not cause harmful interference and accept any interference received. If issues persist, consult a dealer or experienced technician for assistance.
- **Q:** Is it safe to modify the device for better performance?
- **A:** Avoid making any changes or modifications to the unit without express approval, as unauthorized modifications could void your authority to operate the equipment.
Foreword

- Dear user, thank you for purchasing this product.
- In order to have a better understanding of the product, please read this manual carefully before use.
- Have a great experience!

Packing list

Bluetooth audio receiver x 1

Manual x 1

3.5mm audio head x 1

- Do not place it in a high-temperature environment.
- Do not use the battery after immersion in water!

FCC STATEMENT

FCC Warning
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, according to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used under the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
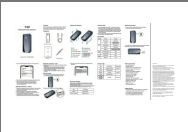

- Consult the dealer or an experienced radio/TV technician for help.

NOTE: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.
