DESCRIPTION

The Uni EHUB01 is a USB-C to Ethernet adapter that allows you to connect your USB-C-enabled devices to a wired Ethernet network. The adapter is compatible with most USB-C-enabled devices such as laptops, tablets, and smartphones.

The adapter has a compact and lightweight design that makes it easy to carry around and use on the go. The adapter is made of high-quality materials that ensure durability and long-term use.

The Uni EHUB01 USB-C to Ethernet adapter supports data transfer rates of up to 1 Gbps, which allows for fast and reliable internet connectivity. The adapter is compatible with both 10/100 Mbps and 1000 Mbps Ethernet networks, providing versatility in its use.

The adapter is easy to use and requires no additional drivers or software. Simply plug the adapter into your USB-C-enabled device, connect an Ethernet cable to the adapter, and you're ready to go.

The Uni EHUB01 USB-C to Ethernet adapter is an excellent choice for those who require a reliable and fast-wired internet connection on their USB-C-enabled devices. Whether you're working from home or on the go, the adapter provides a convenient and efficient way to connect to the internet.

OVERVIEW

CONSCIOUS CHIP

installation of any driver is free ensuring outstanding stability and compatibility

USB-C to Ports

FEATURES

- **Quickgigabit Ethernet**

With a reliable connection speed of up to 1 Gbps, the USB C to gigabit ethernet adapter is also backward compatible with 100Mbps/10Mbps/1Mbps. a superb answer for video conferencing, data transfer, online gaming, and buffer-free movie streaming. (CAT6 & above Ethernet cable is needed to reach 1Gbps.)

- **DATA TRANSFER AT HIGH SPEED**

The additional 3 USB 3.0 ports provided by the uni Ethernet adapter allow you to connect a variety of USB peripherals, including a hard disc, keyboard, mouse, printer, and more. Super high speed up to 5.0 Gbps data transmission, a simple expansion for your laptop or desktop.

- **CONVENIENT & COMPACT**

No additional drivers or software are needed; simply plug and play. A cable made of soft nylon braid is more durable. This USB C hub multiport adapter is made of premium aluminum, which makes it sturdy to use and keeps you safe. from the perspective of cheap, flimsy plastic. For status indication and problem diagnosis, two indicators are created. (Note: Windows 11 requires a driver.)

- **INSTRUMENTAL COMPATIBILITY**

Compatible with a variety of USB-C laptops, tablets, and smartphones, including the MacBook Pro 2021/2020/2019, MacBook Air 2018/2019/2020, iPad Pro 2020/2018, iPad Air/mini 2020, Dell XPS 13/15, Surface Go/Book 2, Pixelbook, Chromebook, Asus ZenBook, Lenovo Yoga 720/910/920, Samsung S21/S20/S10/Note 10/Note 9, Samsung Tab S6, and more. (see more compatible devices in the description)

- **What you receive**

Exquisite design, dependable quality, hassle-free packaging, and competent customer service are all things we strive for.
