UNIFULL

UNIFULL AMAIC-ZYP-002 Collapsible Foot Spa

INTRODUCTION

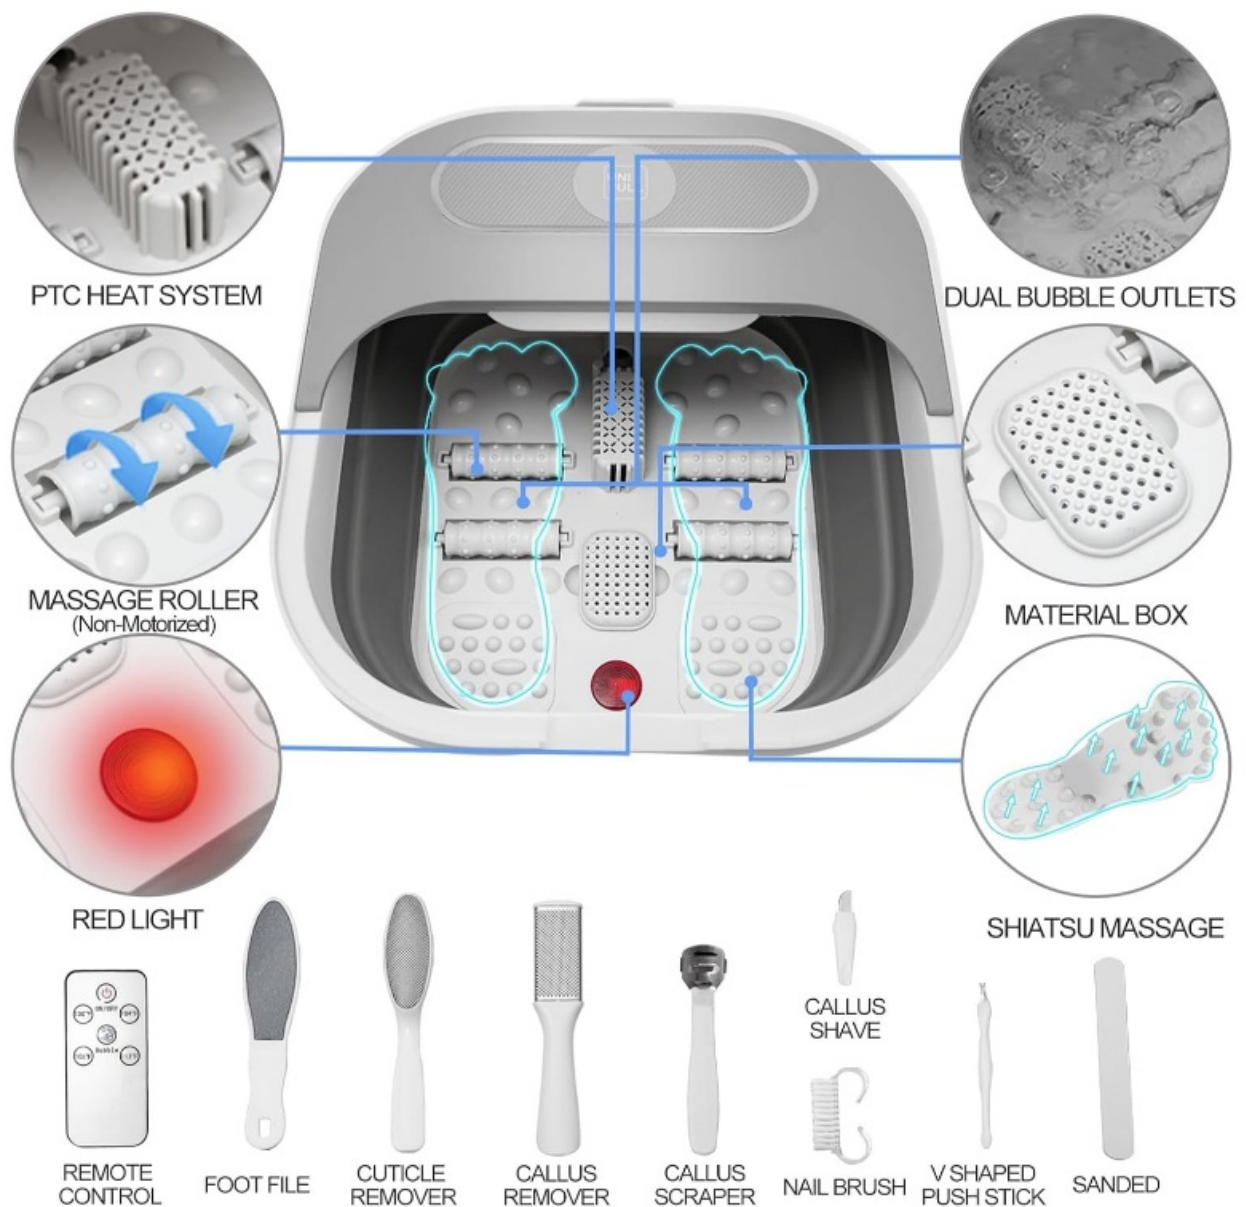

When you're tired from a long day, put your feet in the UNIFULL AMAIC-ZYP-002 Collapsible Foot Spa to relax and soothe them. This foot spa provides comprehensive care for your feet and costs **\$37.99**. A wonderful spa experience is yours with this equipment, which UNIFULL debuted on September 29, 2022. It has heat, massage rollers, bubbles, red light, and temperature control. The water is heated to a comfortable degree in about 15 minutes using the PTC heating technology, and you may customize the water's temperature to your liking within a range of 100°F to 117°F. While the oxygen bubbles promote blood circulation, the Shiatsu massage rollers and massage bumps at the base of the foot spa provide profound relaxation. Its foldable shape and accompanying pedicure kit also make it convenient for storage. If you are looking for a way to relax and rejuvenate without leaving your house, this foot spa is a great pick.

SPECIFICATIONS

- Collapsible Foot Spa
- cuticle remover
- callus remover
- foot file
- callus scraper
- nail file
- V-shaped push stick
- nail brush
- callus shave
- User Manual

FEATURES

- **Heat Function:** The foot spa has a temperature control mechanism that lets you customize the water temperature to your liking, ranging from 100°F to 117°F.
- With the PTC heating technology, the water may be heated to the ideal temperature in as little as fifteen minutes after the lid is placed on.
- The foot spa is designed to be easily stored in compact areas when not in use thanks to its folding feature.

Easily Collapsible Design Space-Saving Storage

- **Shiatsu Massage Rollers:** With its massage rollers and bottom bumps, it offers an extra degree of relaxation with a Shiatsu massage.
- Two oxygen bubble outlets are positioned to massage your feet as the water is heated and circulated.
- A red light function that helps clean your feet and promotes relaxation through infrared light treatment is included in the foot spa.
- Taking care of your feet and removing calluses is a breeze with the pedicure kit that comes with your spa package.
- To complement your foot spa experience, we have included a dedicated material box for all of your spa supplies.
- The spa's architecture incorporates hydroelectric isolation to safeguard users by ensuring that electrical components are shielded from water.
- Easy to Carry and Use Anywhere Thanks to its compact size and built-in corded power source, this device is perfect for usage on the go.
- The foot care package is conveniently placed in a plastic box, allowing you simple access to the foot files and instruments.
- **Soothing Foot Bath:** Soothes weary feet while simultaneously improving blood circulation, relaxing muscles, relieving stress, and facilitating better sleep.

- The foot spa has been through rigorous leak-proof testing to guarantee that it will not leak water while used.
- **Strong Build:** The use of premium PP and TPE rubber materials guarantees a long lifespan and a risk-free product.
- **Space-Saving Design:** Its collapsible structure allows for efficient storage, making it ideal for small living spaces or tight storage areas.

UNIFULL Foot Spa Bath with Heat & Massage

SETUP GUIDE

- **Unbox the Foot Spa:** Remove the foot spa from the packaging, ensuring all components are included (massage rollers, remote control, pedicure kit, etc.).
- **Place on a Stable Surface:** Position the foot spa on a flat, stable surface to prevent it from tipping during use.
- **Assemble the Pedicure Kit:** Store the included pedicure kit in the plastic box provided, ensuring all tools are organized and ready for use.
- **Fill with Water:** Pour water into the foot spa, ensuring it reaches the recommended fill line, taking care not to overfill.
- **Power On the Foot Spa:** Plug the power cord into a grounded outlet and turn on the foot spa.

- **Adjust the Temperature:** Use the temperature control to set the water between 100°F and 117°F, based on your comfort preference.

***Fast Heated
Constant Temperatures
100°F to 117°F***

Hydroelectric Separation System

Temperature Control

Leakage Protection

- **Activate Heating:** Cover the lid and allow the PTC heating system to heat the water to the desired temperature within 15 minutes.
- **Start Massage Rollers:** Turn on the massage rollers and bumps at the bottom of the foot spa for a Shiatsu-like massage effect.
- **Engage Oxygen Bubbles:** Activate the oxygen bubble outlets to stimulate your feet and circulate warm water for an enhanced experience.
- **Use the Red Light:** Switch on the red light function to enjoy infrared light therapy, which can help soothe tired feet.
- **Add Spa Materials:** Place your chosen foot spa materials (Epsom salts, essential oils, etc.) into the material box for a more in-depth foot care experience.
- **Position Your Feet:** Sit back and place your feet into the foot spa comfortably, ensuring your feet are fully immersed in the water.
- **Set Pedicure Tools:** Use the pedicure tools from the kit to take care of calluses, dry skin, or rough patches

while soaking.

- **Monitor the Water Temperature:** During the soak, check that the water stays within the safe range of 100°F to 117°F for optimal comfort.
- **Turn Off After Use:** When finished, turn off the foot spa, unplug the device, and empty the water from the tub.

CARE & MAINTENANCE

- **Clean After Each Use:** Empty the foot spa and clean it with a soft cloth after every use to prevent buildup of salts and oils.
- **Wipe with Mild Soap:** Use a mild soap solution and warm water to wipe down the interior, avoiding harsh chemicals.
- **Avoid Submerging Electrical Components:** Never submerge the electrical parts of the foot spa in water. Clean them with a damp cloth instead.
- **Dry the Foot Spa:** Make sure the foot spa is completely dry before storing it to prevent mold or mildew growth.
- **Store in a Dry Place:** Keep the foot spa in a dry area to avoid damage from moisture, which can affect the electrical components.
- **Check Power Cord Regularly:** Inspect the power cord for any signs of damage, and replace it if frayed or worn out.
- **Empty Water Immediately:** Always drain the water immediately after each use to prevent stagnant water from causing odors or bacteria growth.
- **Store Foot Spa Collapsed:** Fold the foot spa for easy storage and to save space when it's not in use.
- **Keep Pedicure Kit Organized:** Store the pedicure tools in their plastic box when not in use to keep them clean and safe.
- **Inspect for Damage:** Periodically inspect the foot spa for any signs of wear or cracks, and replace damaged parts as needed.
- **Clean Massage Rollers:** Remove any foot debris or dead skin from the massage rollers and bumps regularly.
- **Descale Regularly:** If using hard water, clean the unit with a vinegar solution to prevent mineral buildup inside the foot spa.
- **Check the Heating Function:** Test the heating function occasionally to ensure that it heats up quickly and reaches the desired temperature.
- **Avoid Overfilling:** Always fill the foot spa to the indicated fill line to prevent water from spilling and damaging the unit.
- **Unplug When Not in Use:** Unplug the foot spa when it's not in use to conserve energy and protect the unit from wear.

TROUBLESHOOTING

Issue	Possible Cause	Solution
No power	Power plug not properly connected	Ensure the power cord is securely plugged into the socket.
Not heating up	Incorrect temperature setting or malfunction	Adjust the temperature and allow the device to heat up.
Water not bubbling	Oxygen bubble outlets blocked	Clean the oxygen outlets and ensure proper water circulation.
Weak massage function	Massage rollers may be malfunctioning	Check if the rollers are properly installed and functioning.
Water leakage	Overfilled or improper sealing of the unit	Ensure the lid is securely closed and avoid overfilling.
Temperature too high	Incorrect temperature setting or malfunction	Set the temperature to a comfortable range between 100°F–117°F.
Foot spa is too loud	Air bubbles or jets malfunctioning	Clean the jets and restart the device for quieter operation.
No red light	Red light feature not activated or malfunction	Ensure the red light is turned on and functioning correctly.
Pedicure kit not working	Incorrect attachment or misuse	Recheck the attachments and use them as directed.
Device not vibrating	Vibration function may be off	Ensure the vibration function is activated in the settings.

PROS & CONS

Pros:

1. Adjustable temperature range for personalized comfort.
2. Fast heating system warms the water in just 15 minutes.
3. Includes a pedicure kit for complete foot care.
4. Collapsible design for easy storage and space-saving.
5. Red light helps keep feet clean and hygienic.

Cons:

1. Corded power source limits portability.
2. Some users may find the massage rollers too gentle.
3. Temperature control can be challenging to adjust for certain users.
4. No automatic shut-off feature after the session ends.
5. Pedicure kit may not be suitable for all foot sizes.
