UNILITE SLR-1750 LED Folding Portable Work Task Light

PRODUCT FEATURES

- Super high power 1750 lumen white COB LED, 6500k
- With Red LED modes for emergency / signalling / night vision
- Built-in USB power bank with multiple intelligent outputs – 5V-3A/9V-2A/12V-1A
- Super tough copolymer and aluminum construction
- Glow-in-the-dark strip around reflector for extra visibility
- 180° rotating handle/stand with carabiner snap hook
- Strong magnets within the stand
- IPX5 water resistant
- Super high power 'LG' 10,400mAh li-ion battery
- Battery level and charging indicator LEDs
- Faster 4 or 4.5 hour USB-C charging with multiple inputs – 5V-3A/9V-2A
- 3.2ft high quality USB-C cable included

BATTERY – 3.7v 10400mAh Li-ion Rechargeable Battery **WEIGHT** – 21.1oz

DIMENSIONS – folded 4 x 6.2 x 2.1in extended 4 x 10.5 x 1.8in

ADVICE & IMPORTANT INFORMATION

- LEDs will become hot when switched on; do not touch and never place face down on any surface – risk of fire! Even once the lamp has been switched off, DO NOT place face down as the LED/Lens will stay hot/warm for a while.
- Do not look directly at LEDs.
- Do not operate in direct sunlight or extreme temperature conditions (below – 4°F or above 140°F).
- Do not use the device if there is any visible damage.
- Take care when using a USB plug adaptor, check for any damage. DO NOT exceed the stated charging inputs or damage may occur to the battery.
- New rechargeable batteries will reach full performance after a few complete charging and discharging cycles.
- To keep rechargeable batteries in optimum condition, they should be recharged every 3-6 months, especially if it is not being used for a long period of time.
- Always fully charge batteries before storage.
- Always protect lithium batteries from heat, intense sunlight, fire, water and moisture –

danger of explosion!

- If a battery is damaged, fluids can leak out. AVOID contact as this can lead to skin irritation and/or burns. If skin contact occurs, rinse thoroughly with water. If irritation persists, seek medical advice. Seek immediate medical assistance if lithium battery fluid comes into contact with the eyes.
- Children under 12 years of age should only use the product under adult supervision.
- Do not open, disassemble or attempt to modify the product; this will void the warranty and can be dangerous. Improper use or modification is not covered under the warranty.
- Take care to avoid lenses coming into contact with hard/sharp objects, damage or scratches on lenses will affect light output.
- This product is water resistant to IPX5 – DO NOT SUBMERGE. If the product has been subjected to excessive moisture/water the warranty may be void.
- Please recycle packaging responsibly.
- Keep these instructions for future reference or for subsequent possessors.

ANSI FL1 Standard

			
White - Super Bright 	1750 Lumen	164ft	4.5H
White - High 	675 Lumen	104ft	8.5H
White - Medium 	330 Lumen	72ft	21H
White - Low 	55 Lumen	26ft	138H
Red - High 	50 Lumen	--	26H
Red - Flashing 	--	--	195H

OPERATING INTRUCTIONS

- Press the button on the side of the lamp to activate.
- When ON in either White or Red mode, press and HOLD the button to change to the other mode. Mode Sequence:-
- WHITE: Super Bright > High > Medium > Low > Off
- RED: High > Flash > Off

[If left ON in any mode for over 3 seconds, the next press will turn off]

RECHARGING

1. Only use a USB-C charging cable.
2. Lift the charging port cover on the top of the lamp.
3. Plug the USB-C end of the cable into the USB-C charge port.
4. Plug the USB-A end of the cable into a USB charging port (do not exceed 5V-3A or 9V-2A charging input or damage may occur to the internal battery).
5. 4 x Blue LEDs will flash to indicate charging. Once fully charged all LEDs will light up constantly.
6. Charge Time: 5V-3A = 4 hours or 9V-2A = 4.5 hours (lower Amp charging will take longer)

(PRODUCT CAN BE USED WHILE RECHARGING)

****Warranty void if not used with the stated charger specifications****
