urbanX P11 Bluetooth Keyboard

Product Information

Specifications

- **Product Name:** Bluetooth Keyboard
- **Connectivity:** Bluetooth
- **Compatibility:** Works with devices that support Bluetooth connectivity
- **Power Source:** Built-in rechargeable battery
- **Dimensions:** [Insert dimensions]
- **Weight:** [Insert weight]

Product Usage Instructions

Charging the Keyboard

To ensure uninterrupted usage, it is recommended to fully charge the keyboard before initial use. Follow the steps below:

1. Locate the charging port on the keyboard.
2. Connect one end of the provided USB cable to the charging port and the other end to a USB power source.
3. The charging indicator will light up, indicating that the keyboard is being charged.
4. Once fully charged, the charging indicator will turn off.

Pairing the Keyboard with a Device

To use the keyboard with your device, it needs to be paired via Bluetooth.

Follow these steps:

1. Turn on the Bluetooth keyboard by pressing the power button located on the side or top of the keyboard.
2. Enable Bluetooth on your device. Refer to your device's user manual for specific instructions.
3. In the Bluetooth settings on your device, search for available devices.
4. Select the Bluetooth keyboard from the list of available devices.
5. A prompt may appear on your device asking for a pairing code.
 - Enter the code displayed on the keyboard and press Enter.
6. Once successfully paired, the keyboard will be ready to use with your device.

Using the Keyboard

After the keyboard is paired with your device, you can start using it for typing. Here are some important points to remember:

- Place your device within the recommended Bluetooth range (usually around 10 meters) for optimal performance.
- Make sure the keyboard is turned on and connected to your device via Bluetooth.
- Use the keys on the keyboard to type as you would with a regular keyboard.
- If any keys are not functioning properly, try re-pairing the keyboard with your device or check the battery level.
- When not in use, turn off the keyboard to conserve battery power.

FAQ

Q: Can I use this keyboard with multiple devices?

- **A:** Yes, you can pair the keyboard with multiple devices.
- However, you need to disconnect it from one device before connecting it to another.

Q: How do I know if the keyboard is low on battery?

- **A:** The keyboard's battery level can usually be checked on your device's Bluetooth settings. Additionally, some keyboards have LED indicators that show the battery status.

Q: Can I customize the function of any keys on the keyboard?

- **A:** Customizing key functions may vary depending on the device you are using. Please refer to your device's user manual or settings for more information on customizing keyboard functions.
