Thank you for your investment and trust in E-Nano vlog kit with light and microphone.

Shoot, edit and upload on the go! USKEYVISION E-Nano smartphone vlogging kit is designed as a portable studio for vloggers and content creators who want to take their smartphone filmmaking to the next level. USKEYVISION E-Nano vlog kit is made for vlogging on your phones. Say goodbye to complicated, expensive filmmaking setups. This smartphone kit effortlessly levels up your video, whether you're starting a YouTube channel, doing an interview, or out capturing your latest travels. The E-Nano combo is light-weight and compact in hand, making it ideal for any on-the-go content creator. YouTubers, vloggers, journalists, live streamers, and smartphone filmmakers will love it. It's also great for anyone who just wants to improve the quality of their photos or videos with family and friends.

The real game-changer is the boost your video will receive –

E-Nano vlogging kit gives your video more stability and better sound thanks to the BSM-1 microphone. Included microphone significantly improves your audio record, delivering crisp and clear audio experience, while blocking out peripheral environmental noise.

Features**Compact Design**

Lightweight and easy to pack. Perfect for the on-the-go vlogger, smartphone filmmaker, journalist or traveller.

Universal Cardioid Microphone

The BSM-1 directional microphone delivers high-quality audio and is well compatible with all smartphones, DSLRs, tablets, audio recorders and more camera accessories at one time.

Sturdy and Durable Support

The tripod and ball head are built from durable ABS to give your phone the support and different angles for your needs.

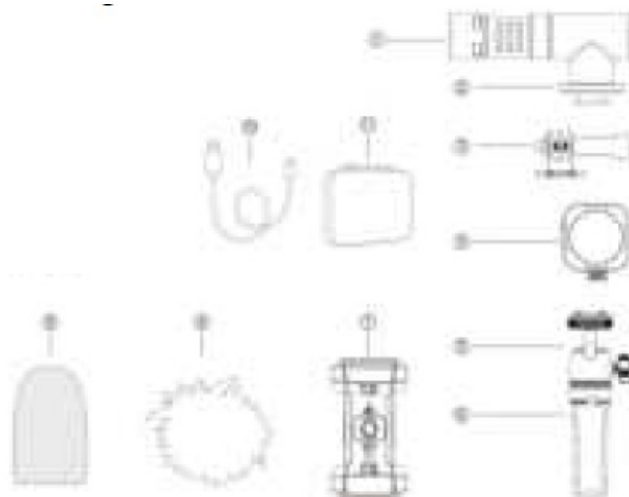

Versatile Setup

Simply attach the adjustable tripod when you need it or remove it and go handheld when you don't. It also comes with a mini ball head to rotate and angle your phone.

Light, Tripod and Extension Monopod Included

The light provides a soft and natural lighting for your vlogging. Tripod can be handheld as a grip. The tripod is built from durable ABS plastic to give your phone the support it needs when shooting videos. The tripod supports up to 5kg and the extension rod extends from 13cm to 31cm, so you can use it with your camera as well.

Package List

1. BSM-1 microphone
2. Shock mount
3. Action camera adapter
4. Video light
5. Tripod ballhead
6. Extension rod
7. Phone holder clip
8. Windscreen
9. Foam
10. USB-C charging cable

3.5mm TRRS connector cable –

(for smartphone, tablet, PC or MacBook)

for smartphone, tablet, PC or MacBook

3.5mm TRS connector cable –

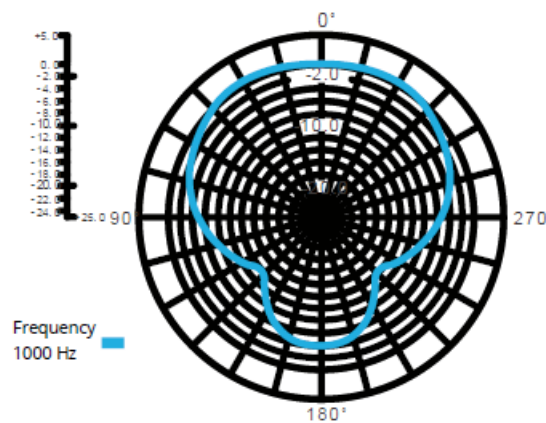

(for cameras, camcorders, audio recorders and other audio/video recording devices)

BSM-1 Microphone Specifications

- Polar Pattern Super Cardioid
- Frequency Response 40Hz ~ 20 kHz
- Signal to Noise Ratio 76db Sensitivity 48db
- (F = 1kHz, SPL = 1Pa 0db = 1V/Pa)
- Maximum SPL 110db
- Audio Output 3.5mm
- Size $\phi 20.2\text{mm} \times 90\text{mm}$
- Weight 48.6g
- Power Requirements No battery required

Microphone Polar Pattern

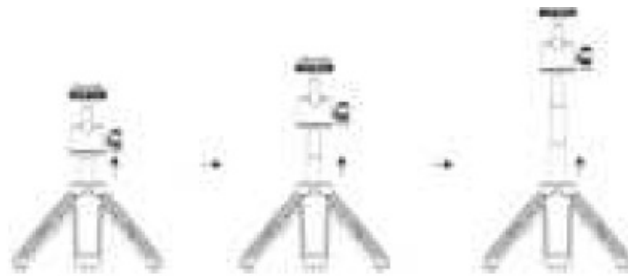

How to Use Tripod Ballhead

Turn the ballhead locking screw counter-clockwise, then adjust the upper part to your desired position. Turn the locking screw clockwise to tighten the ballhead.

How to Set Tripod to Different Height

If you need to shoot from a different height, the monopod can be flexibly extended by pulling the tripod ballhead. The extension methods are shown below.

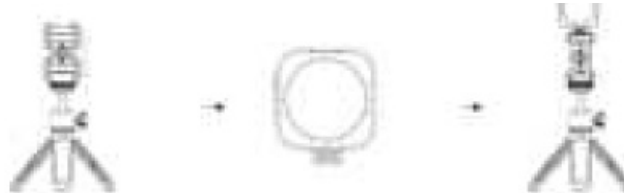

Quick Setup Guide

1. Install the phone clamp on the ballhead's cold-shoe base.

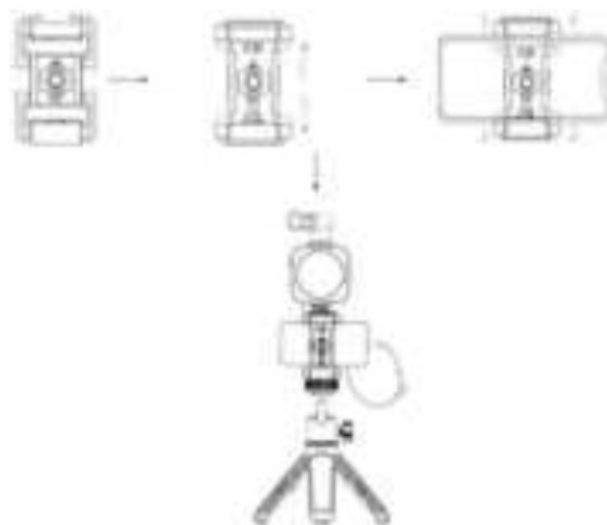

2. Install the light on the phone clamp.

3. Install the microphone on the top of the video light.

4. Mount the smartphone on the phone clamp and then you can connect the microphone audio cable into the 3.5mm headphone jack on your smartphone. For iPhone, you also need Lightning to 3.5mm headphone jack adapter cable to be installed first.

Mount the BSM-1 microphone with the smartphone:

- Plug the TRRS cable into the audio jack of your smartphone. If your phone doesn't have audio jack, you will need to separately purchase conversion adapter.

- Open the recording app and start recording.

Troubleshooting

The microphone doesn't work.

Make sure that you are using the correct audio cable – TRS to TRS cable for cameras, TRS to TRRS for smartphones.

The audio contains too much ambient noise.

Make sure that the microphone is close and directly facing the subject. A certain amount of ambient noise is unavoidable in an extremely loud environment.

Warranty Conditions

A new product purchased in the Alza.cz sales network is guaranteed for 2 years. If you need repair or other services during the warranty period, contact the product seller directly, you must provide the original proof of purchase with the date of purchase.

The following are considered to be a conflict with the warranty conditions, for which the claimed claim may not be recognized:

- Using the product for any purpose other than that for which the product is intended or failing to follow the instructions for maintenance, operation, and service of the product.
- Damage to the product by a natural disaster, the intervention of an unauthorized person or mechanically through the fault of the buyer (e.g., during transport, cleaning by inappropriate means, etc.).
- Natural wear and aging of consumables or components during use (such as batteries, etc.).
- Exposure to adverse external influences, such as sunlight and other radiation or electromagnetic fields, fluid intrusion, object intrusion, mains overvoltage, electrostatic discharge voltage (including lightning), faulty supply or input voltage and inappropriate polarity of this voltage, chemical processes such as used power supplies, etc.
- If anyone has made modifications, modifications, alterations to the design or adaptation to change or extend the functions of the product compared to the purchased design or use of non-original components.
