Installation

Safety Information:

- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- Turn power OFF before installing.
- This product is intended for use with the enclosed gasket and with a junction box marked for use in wet locations.

Installations:

For best performance, mount the light about 6.5-8ft above the ground.

1. Turn off the power.
2. Install the mounting strap as shown with two screws that fit your junction box.
3. Tighten the wires with wire connectors. L should be connected to Black wire, N should be connected to White wire.

4. After mounting the light, apply silicone sealant completely around the perimeter of the cover plate where the back of the cover plate meets the mounting surface. Silicone sealant prevents water from seeping into the junction box.

Note:

Wall switch control, NOT Dimmable, Brightness NOT adjustable.

The light source of this luminaire is not replaceable, when the light source reaches its end of life the whole luminaire shall be replaced.

SUITABLE FOR WET LOCATIONS;
SUITABLE FOR OPERATION IN AMBIENT NOT EXCEEDING 40°C ;
