UtechSmart GMS-X5 RGB Gaming Mouse Pad

Launch Date: June 12, 2023
Price: $14.50

Introduction

The UtechSmart GMS-X5 RGB Gaming Mouse Pad is a high-performance add-on made for players and people who use computers at work. This mouse pad has 14 amazing RGB lighting modes that you can change to make the experience more engaging, whether you're gaming, working, or streaming. The big surface area (31.5 x 11.8 inches) can fit your keyboard, mouse, and other accessories, giving you plenty of room to move smoothly and precisely. The waterproof, nano-textured surface makes the pad last longer and makes it easier to control the mouse. The non-slip rubber base keeps the pad stable even during long game sessions. The UtechSmart GMS-X5 is built to be comfortable, work well, and last a long time. It is easy to set up because it is plug-and-play. This mouse pad is the best way to get the most out of your gaming and leisure time, whether you like fast-paced first-person shooters or need a stable workplace.

Specifications

- **Manufacturer:** UtechSmart Technology
- **Brand:** UtechSmart
- **Item Weight:** 11.3 ounces (approx. 320 grams)
- **Product Dimensions:** 31.5 x 11.8 x 0.2 inches (800 x 300 x 5 mm)
- **Item Model Number:** GMS-X5
- **Color:** RGB (with customizable lighting modes)
- **Shape:** Rectangular
- **Material Type:** Rubber (for base), textile-weave cloth (for surface)
- **Number of Items:** 1 (includes mouse pad only)
- **Size:** 11.8L x 31.5W inches (large enough to accommodate a keyboard and mouse)
- **Manufacturer Part Number:** X5

Package Includes

- 1 x **UtechSmart GMS-X5 RGB Gaming Mouse Pad**

- 1 x USB Cable (5 feet, micro-USB to USB-A)
- 1 x User Manual

Features

1. **14 RGB Lighting Modes:** The UtechSmart GMS-X5 has 14 RGB lighting modes that can be changed to suit your needs. These include seven steady colors, alternating wave effects, synchronizing waves, alternating flashes, red-changing lights, breathing modes, and more. With so many lighting settings, users can change how their mouse pad looks to match their mood or the room they're in. You can use the dynamic lighting options to improve your experience while gaming, working, or streaming. They don't get in the way too much, so they're great for immersive settings.

2. **Large and Roomy:** The UtechSmart GMS-X5 is a large desk organizer that measures 800 x 300 mm (31.5 x 11.8 inches). It has plenty of room for your keyboard, mouse, and other work accessories. This large surface gives you plenty of room to move the mouse quickly, which makes it perfect for gamers who need accuracy for FPS (first-person shooters) and MMO (massively multiplayer online) games. The large area lets you move around easily, even when you're working in an office.
3. **Smooth, High-Precision Surface:** The mouse pad has a textile-weave pattern that makes it very smooth and makes sure that the mouse moves quickly and accurately. This very smooth surface lets you move quickly and accurately, which gives gamers an edge, especially in fast-paced games. It helps a lot with games that need perfect accuracy, like MOBAs and first-person shooters. The surface is also made to work with optical and laser

mice, as well as wired and wireless mice.

4. **Non-Slip Rubber Base:** The UtechSmart GMS-X5 has a natural rubber-textured bottom that keeps it firmly on your desk. This non-slip base keeps the mouse pad in place, even during the longest gaming sessions, so it doesn't move around and get in the way of your game. The smooth surface makes the mouse pad even more stable, so it stays put while you work.

5. **Durability:** The UtechSmart GMS-X5 is made to last. It is made of high-quality materials and is built to be strong, so it won't break down over time. This mouse pad will hold up against normal use without showing signs of damage, no matter how much you play. The nano-textured surface that doesn't absorb water also makes it last longer, so the pad will keep its quality for a long time.

6. **Easy Plug-and-Play Setup:** The UtechSmart GMS-X5 is intended to be plug-and-play, which means it doesn't need any extra software or drivers to work. You can choose the RGB lighting mode you want and then plug the USB wire into your computer. You can change the lighting styles, change the brightness, or turn the mouse pad on and off with an easy-to-use button. The mouse pad will remember the last lighting mode you chose, so you won't have to set it up again every time you use it.

Short press to switch lighting mode.
Double press to adjust brightness.
Long press for 3s to turn it on/off.

7. The UtechSmart GMS-X5 is made with a thickness of 0.2 inches, which strikes a good mix between comfort and performance. This thickness is perfect for supporting your wrist, so it stays comfortable even after hours of work or games. The extra padding eases strain and improves ergonomics, and the low size means it doesn't get in the way of moving the mouse.

8. **Nano-Textured Cloth Surface:** The nano-textured cloth surface makes sure that every movement of the mouse accurately moves the crosshairs. This smooth, lab-tested surface is very fine and has just the right amount of friction for easy control while keeping the speed needed for quick moves. It's great for gamers who need accurate and steady performance.

9. **Aqua-Resistant Nano-Texture:** The UtechSmart GMS-X5's surface is made of nano-materials, which make it waterproof and resistant to spills. The surface won't get damaged if you spill water or coffee on it by chance. This makes it perfect for gamers and office workers who might spill drinks sometimes.

10. **Reinforced Non-Slip Rubber Base:** The UtechSmart GMS-X5's non-slip rubber base not only holds the pad firmly in place, but it also has a new feel that makes it easier to hold on to. The full anti-skid feature ensures a solid base, stopping any unwanted shifting during intense games and keeping the pad perfectly in place on your desk.

Usage

Care and Maintenance

- **Cleaning the Surface:** To maintain the pristine look and performance, regularly wipe down the surface with a clean, soft cloth. If it gets dirty, use a mild detergent and water, but avoid soaking the mouse pad.
- **Storing the Mouse Pad:** When not in use, avoid folding the mouse pad. Roll it up carefully if you need to store it, as this will preserve its shape and prevent any damage to the surface or lighting.
- **Maintaining the Lighting:** Ensure the USB connection is properly plugged into your PC or power source. If the lighting dims or malfunctions, check the connection and test the mouse pad with a different port.
- **Avoid Spills:** Although the **UtechSmart GMS-X5** is durable, it's best to avoid spilling liquids on it, as this could affect the electrical components.

Troubleshooting

RGB Lighting Not Working:

- Ensure the mouse pad is plugged into a USB port that provides sufficient power.
- Check the cable for any visible signs of damage. If needed, try using a different USB port or cable.
- If the lighting is still not functioning, try resetting the device by unplugging and re-plugging it back in.

Mouse Pad Sliding:

- Ensure that the surface you're placing the mouse pad on is clean and flat.
- If the rubber base is not gripping well, clean the bottom of the pad with a damp cloth to remove any dust or debris that could hinder the grip.

Mouse Not Tracking Properly:

- The **UtechSmart GMS-X5** is compatible with most mice, but check if your mouse's sensor is working properly on other surfaces.
- Clean both the mouse sensor and the surface of the mouse pad to ensure smooth tracking.
- If the issue persists, ensure your mouse's settings are configured correctly for the surface.

Charging Issues (If Applicable):

- If using wireless charging, ensure that your device is Qi-compatible.
- Check if the power source is providing the correct voltage (5V or 9V) for optimal charging.
- Make sure that the charging area is clear of obstructions or foreign objects.

FAQs
