SETUP GUIDE

- Carefully unbox the lamp; handle the delicate glass base and salt bits.
- **Select an Ideal Location:** Set the light in your bedroom, living room, or office on a level platform.
- Make sure the lamp stays away from humid places like bathrooms, kitchens, or next to open windows.
- **Sort the salt chunks:** gently move the salt boulders to create an even light effect should they move during transportation.
- Insert the 150 cm USB cable into a wall adapter, power bank, or laptop power source.
- Turn on the lamp by use of the touch-sensitive switch.
- **Choose the Lighting Mode:** based on your taste, either warm light mode or colour-changing mode.
- Check the diffusion of light by seeing how the light distributes among the salt chunks and make necessary changes.
- **Steer clear of direct sunlight:** too much sun can over time diminish the natural colour of the salt.

- Verify the cable's neat arrangement. Maintaining the USB cable tangle-free will help to avoid damage or mishaps.
- Verify power compatibility to be sure your USB adapter has a steady 5V output for best performance.
- Check and change salt location periodically to create an even lighting effect.
- Steer clear of water contact by not allowing the light to come into touch with spills, dampness, or water.
- Turning off the lamp when not in use will help the LED bulb last for more years.
- Steer Clear of Small Children and Pets Keep the salt cubes off reach since they are not food.

CARE & MAINTENANCE

- Dusting the lamp and glass base gently with a soft, dry cloth can help you to clean them.
- Steer clear of washing the salt crystals since they will dissolve in damp environments.
- Store in a low-humidity area; keep dry to stop the salt from sweating.
- Detailed cleaning calls for a little brush; a delicate paintbrush will help clean between salt pieces without hurting them.
- Steer clear of too touching the salt crystals since salt absorbs moisture from your fingertips, which causes surface damage.
- Check the glass base often to be sure it is dust-free and clean.
- **Do Not Overheat the Lamp:** Steer clear of leaving the lamp on unattended for extended periods to prevent too great heat accumulation.
- **Unplug When Not in Use:** Disconnect the USB to save the LED bulb.
- Use silica gel packs close by to assist absorb extra moisture by surrounding the lamp.
- Steer clear of heavy pressure on the lamp by not laying bulky objects on or close by to cause harm.
- Make sure the USB wire is tightly hooked in without too much bending.
- **Store Correctly When Not in Use:** To stop salt degradation, store the lamp in a sealed box including dry cushioning.
- Steer clear of metal surfaces since, over extended periods of time, salt can corrodes them.
- Periodically check LED functionality; if the LED light fails, contact V.C. Formark since the bulb cannot be replaced.
- **Do Not Cover the Lamp:** Faster salt degradation results from moisture retention caused by blocked airflow.
