v4ink GPSR 42ml Handheld Inkjet Printer

Key Features

- **Various Customized Contents:** Support printing text, expiry date and time, number, QR code, barcode, UPC code, symbol, picture, logo. Supports multi-line printing with adjustable print height ranges from 2.5mm to 12.7mm.
- **Print on Multiple Surfaces:** Support printing on *both water absorbing materials and non-water absorbing materials* such as wood, cloth, fabric, paper, carton, plasterboard, fiberboard, cement wall, plastics, glass, acrylic, ceramics, PVC, metal, aluminum, etc.
- **Wide Applications:** Widely apply to industries such as retail store, food, coffee shop, packaging, logistics, manufacturing, warehousing, clothing, timber. You can even make your own arts and crafts if you're someone full of imagination and creativeness.
- **Variable Data Printing:** **B3 handheld printer** has a unique variable database printing system, from which the printing elements such as QR code, barcode, text and number may be changed from one printed piece to the next, without stopping or slowing down the printing process and using information from a database or external file.
- **Low Consumption Ink:** v4ink Bentsai BT-HH6105B3 coding printer uses either a water-based ink or solvent ink, each cartridge contains 42ml high capacity ink, prints up to 2,000,000 characters \approx 1,080,000 production date \approx 98,182 QR Codes \approx 29,189 barcodes. Every single character only costs \$0.0002 at average gray level 3. A great money saver compared to other handheld inkjet printers.
- **17 Language Options:** Simplified Chinese, Traditional Chinese, English, Japanese, Korean, German, Spanish, Russian, Arabic, Italian, Portuguese, French, Hindi, Thai, Vietnamese, Persian, Turkish.

Warranty

- Each v4ink handheld printer enjoys a 12-month limited warranty from the date of purchase, welcome to contact us at support_team@v4ink.com for support if you have any questions or problem with our products.

Printer Dimensions

- 138*54*217mm / 0.45*0.18*0.7 inch

EASY INSTALLATION

FAQs

- **What's the difference between BT-HH6105B1, BT-HH6105B2 and BT-HH6105B3 handheld printers?**
 - BT-HH6105B1 can only use a water-based ink to print on porous/water absorbing surfaces. BT-HH6105B2 and BT-HH6105B3 can use either a water-based ink or solvent fast dry ink to print on porous surfaces.
 - However, BT-HH6105B3 has a variable database printing function which allows you to print unique codes, numbers and texts on your products without a stop. This is the major function that differentiates B3 from B1 and B2 printers.
- **What's the difference between B30 and B35 handheld printer?**
 - The only difference between the two model is that B30 can only work with a water-based ink to print on water absorbing surfaces such as carton, cardboard, cement, wood, fabric, plasterboard, fiberboard, etc; while B35 can work with either a water-based ink or a solvent quick dry ink to print on both water absorbing and non-water absorbing surfaces including plastic, PVC, glass, chinaware, aluminum foil, metal, concrete and many more.
- **What's the difference between B80 and B85 wide format handheld printer?**
 - The only difference between the two model is that B80 can only work with a water-based ink to print on water absorbing surfaces such as carton, cardboard, cement, wood, fabric, plasterboard, fiberboard, etc; while B85 can work with either a water-based ink or a solvent quick dry ink to print on both water absorbing and non-water absorbing surfaces including plastic, PVC, glass, chinaware, aluminum foil, metal, concrete and many more.
