Vadsbox IP20 Junction box

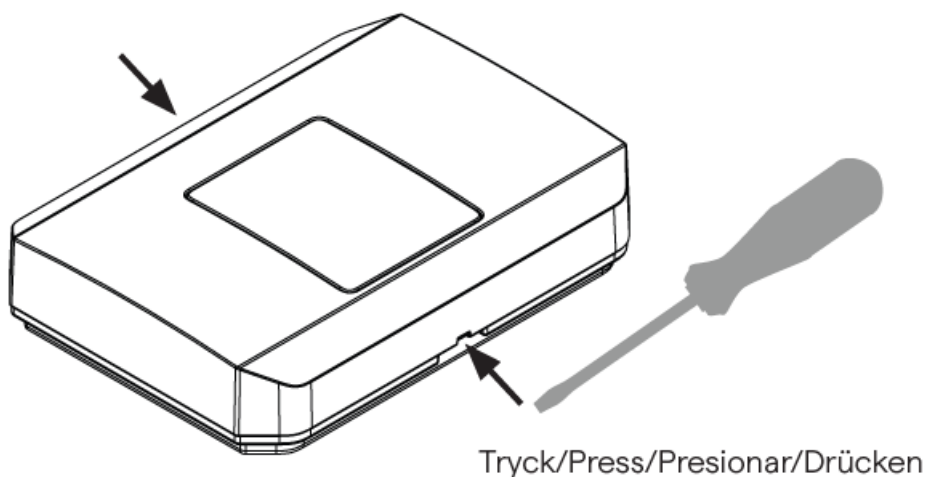

**Warning!**

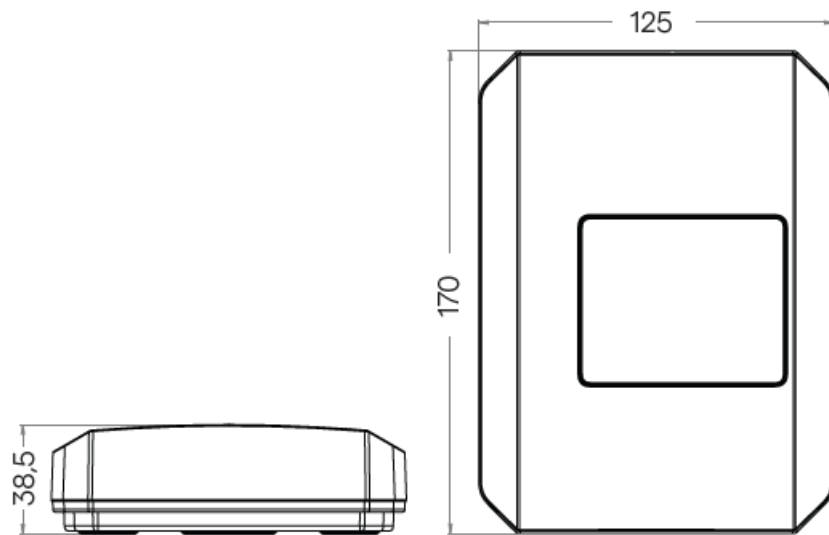

High voltage. Risk of electric shock. Installation should only be performed by a qualified electrician. Make sure that the power supply is switched off before connecting.

Vadsbox is a junction box intended for the fitting of products such as dimmers, control modules and relays. Vadsbox is IP20 compliant and intended for placement in suspended ceilings or for surface mounting indoors. Vadsbox is equipped with a 5-pole spring connector, which can be removed from the fitting if necessary. Vadsbox's base plate includes brackets which, with the help of the included cable ties, allow for a universal fitting of products, as well as simple internal cable management and strain relief.

Open locking clips

To open the Vadsbox press a screwdriver against the locking clips on each long side, as per the picture below.
