- 11 Related Posts

Dashboard Features

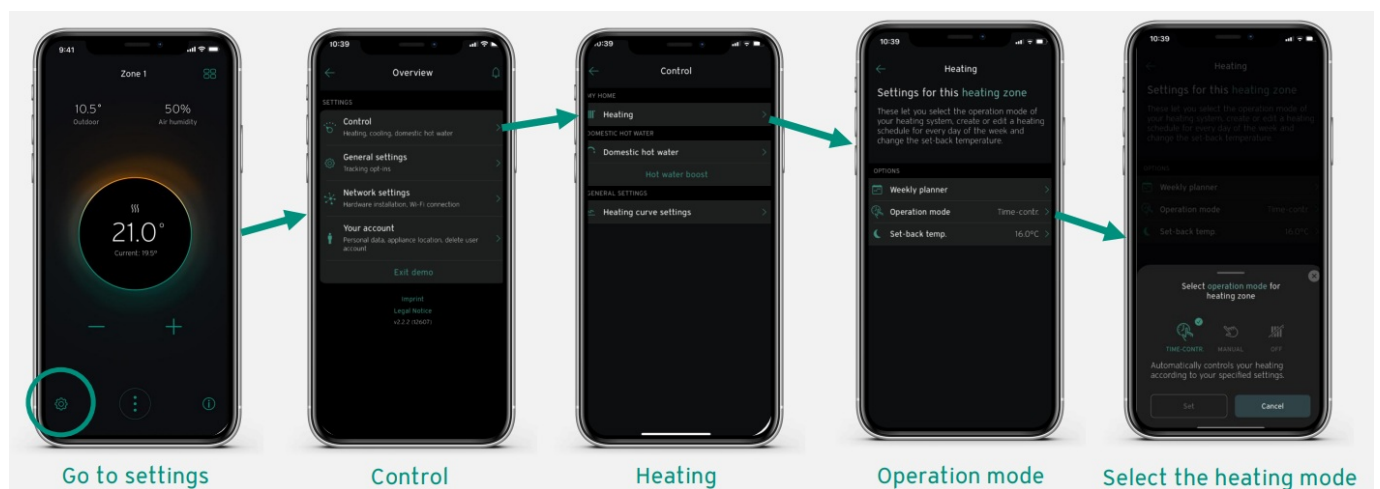

All in one place

The dashboard lets you...

- See your heating's status at a glance
- Check the indoor and outdoor climate
- Access all main functions from one central place

Manual mode – heating

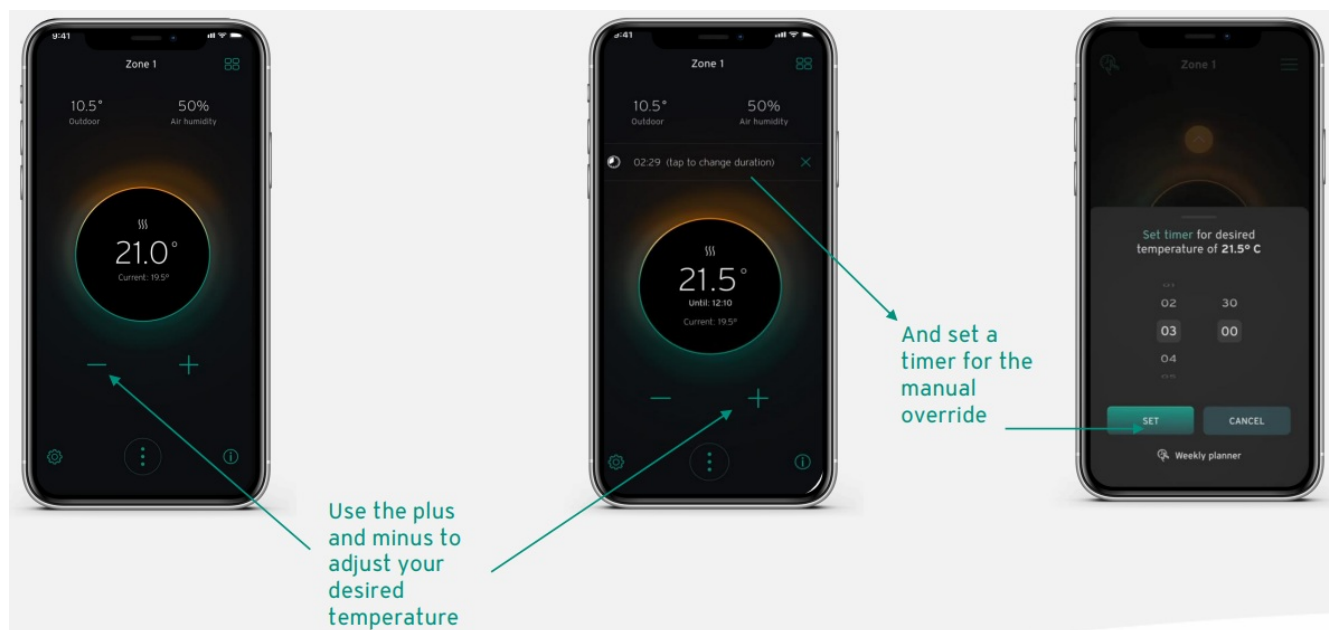

Manual Overdrive

Maximum flexibility

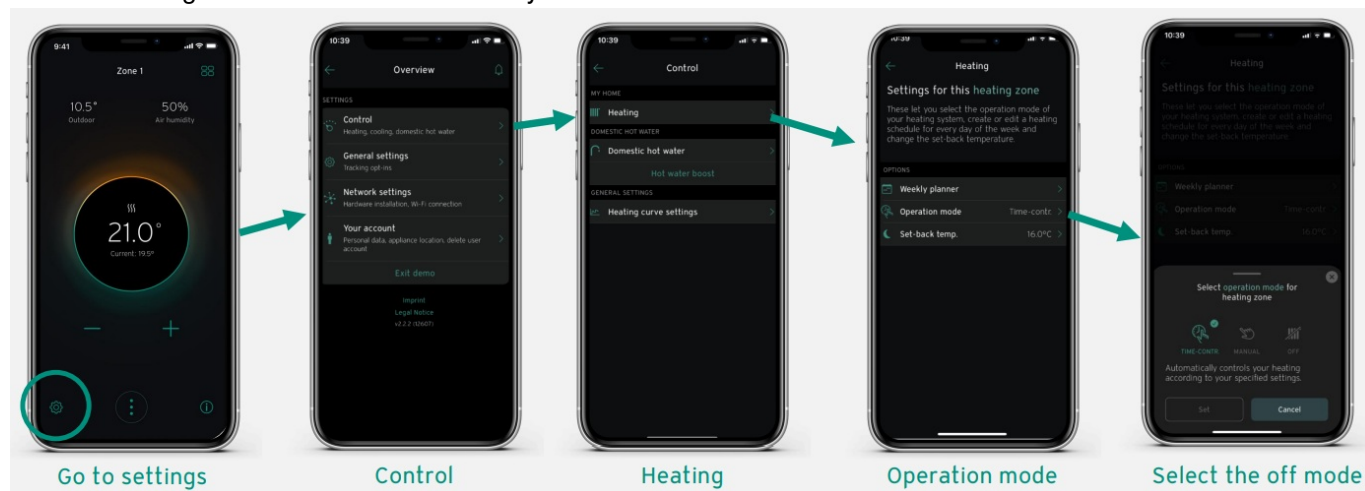

When your plans change, you can

- Temporarily override your automated settings
- Quickly adjust the temperature manually

Hot water mode only

Turn off heating zone to allow hot water only

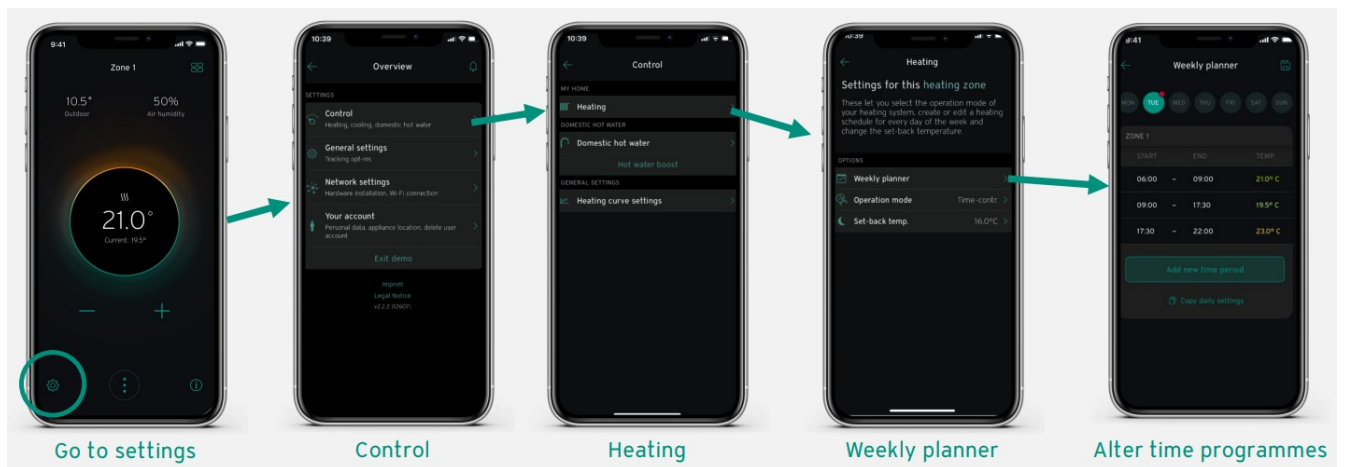

Away function (and hot water boost)

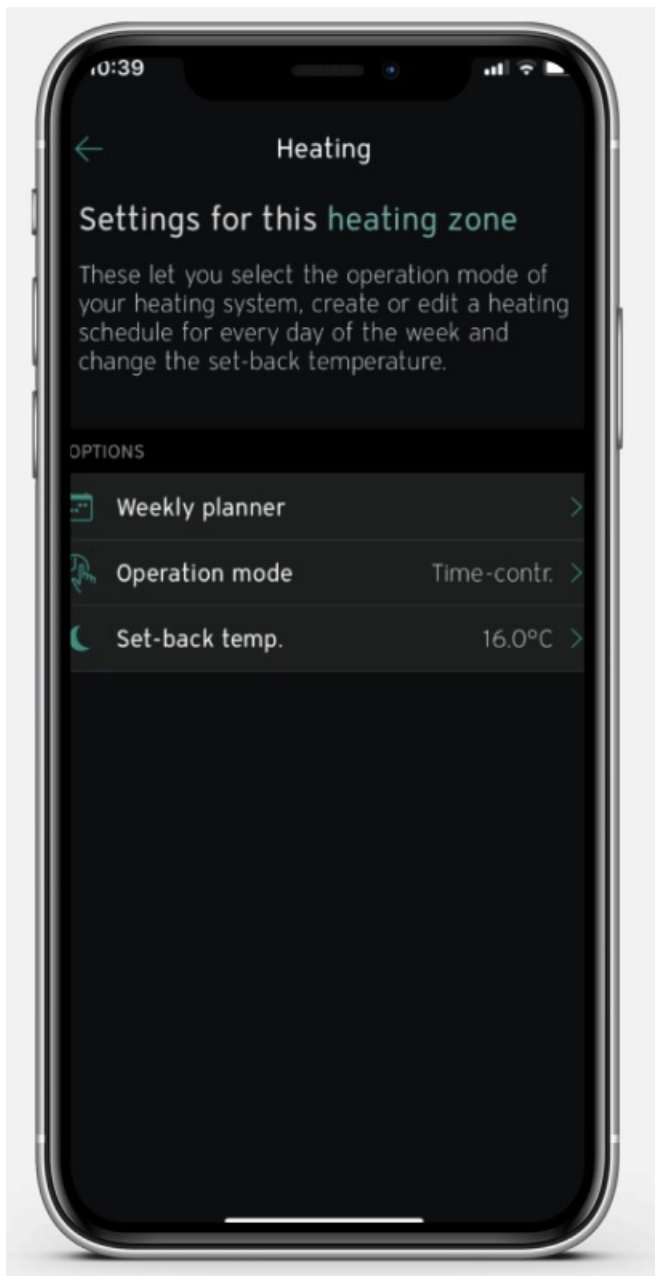

Time Programmes

- Adjust your heating to automatically adapt to your life and habits
- Always enjoy the perfect room climate
- Use energy only when you need it

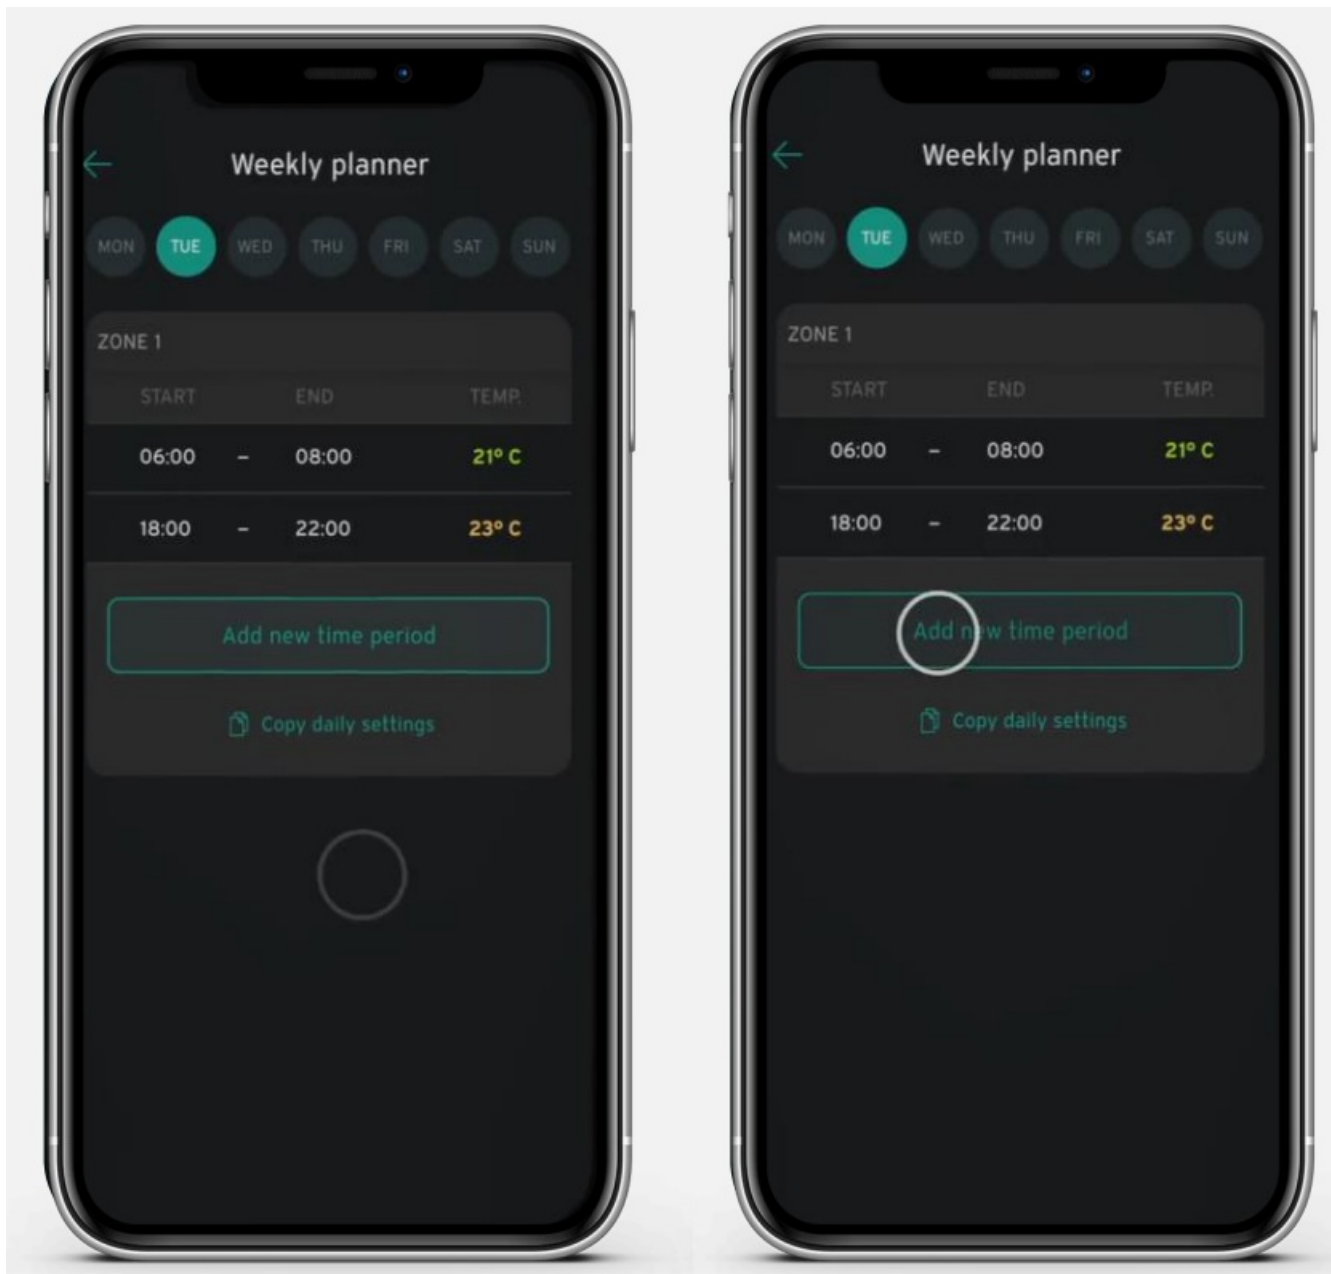

Smart, automated heating

Pick a weekday and add a new time period

Smart, automated heating

Set the time period and your desired temperature

Copy and paste

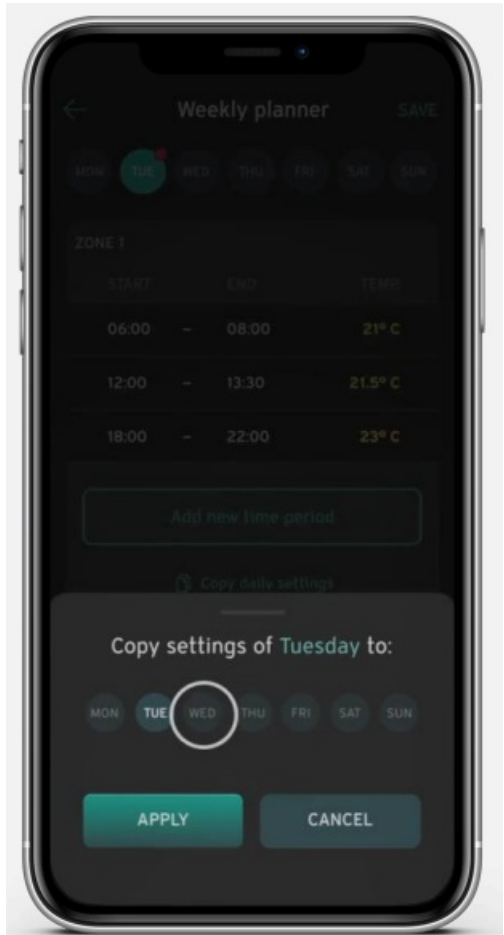

Smart automated heating

To apply these settings to other days of the week, tap on Copy Daily settings...

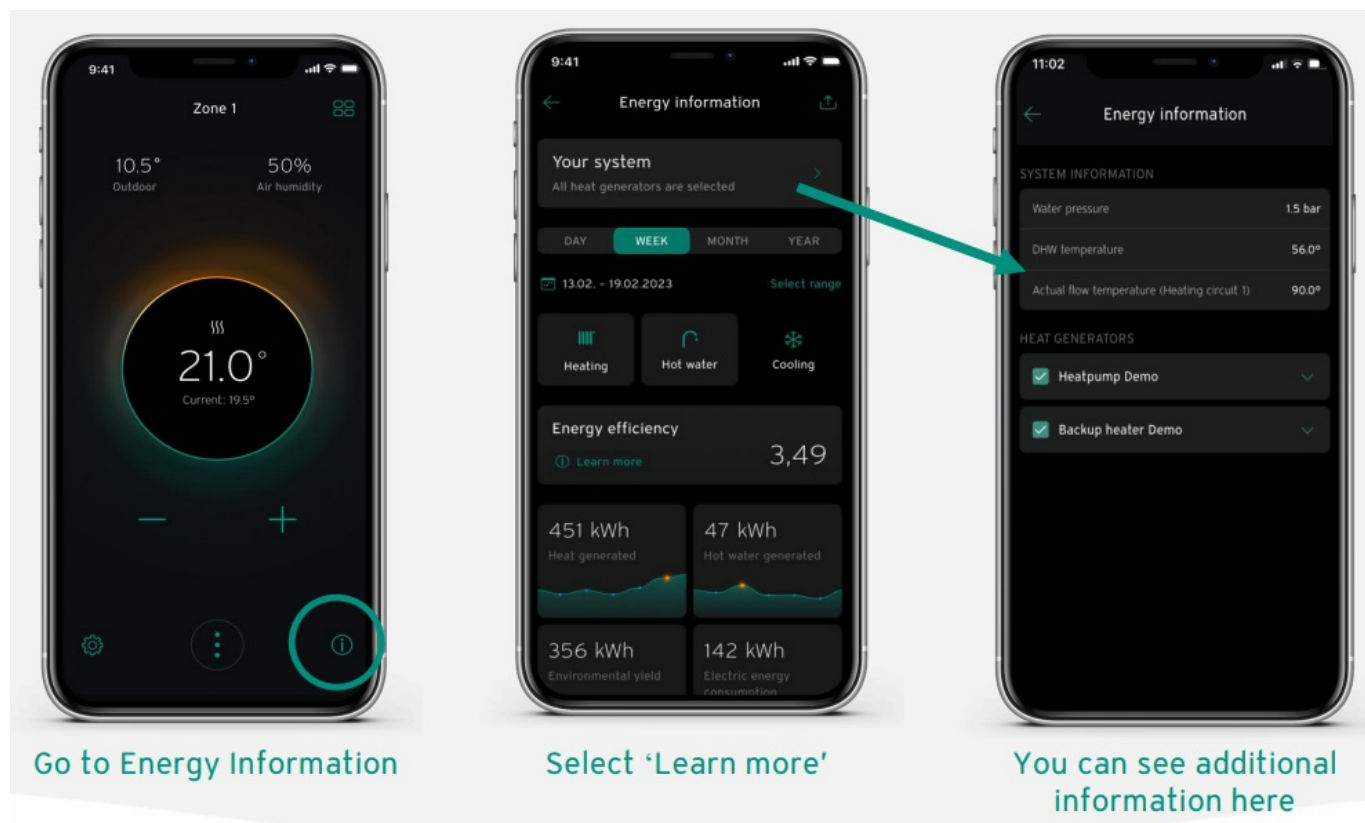

Smart automated heating

...and select the days you would like to copy your settings to

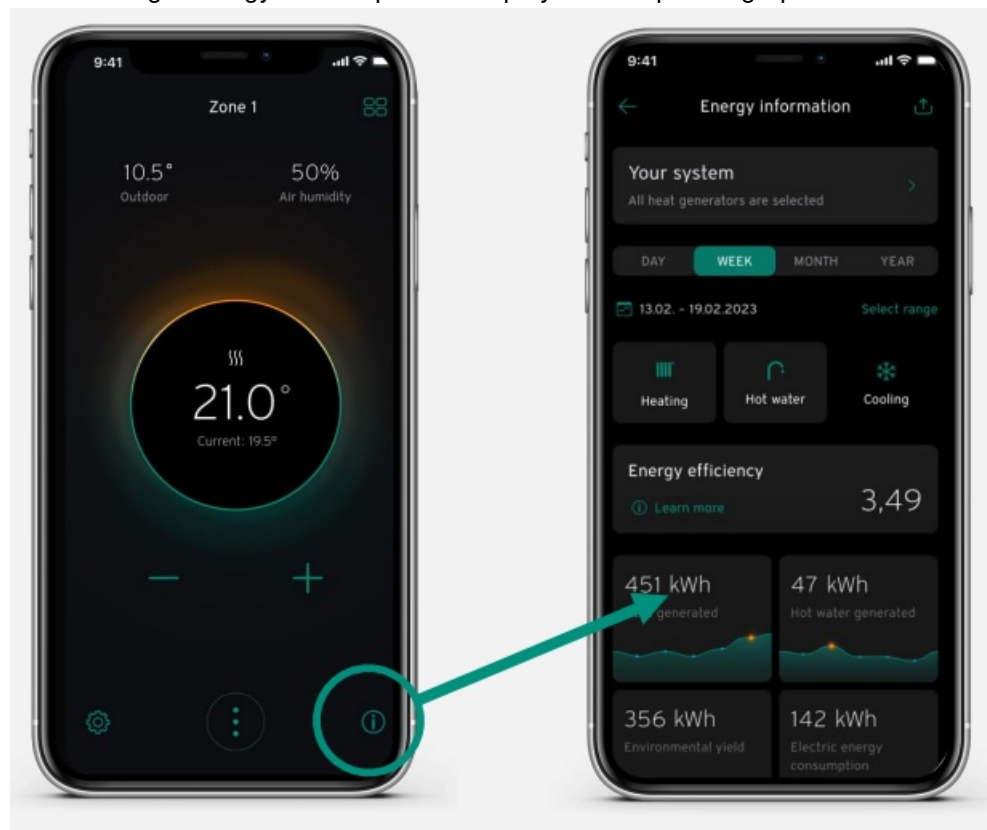

Energy Information

Energy Consumption Graphs

Your heating's energy consumption is displayed as separate graphs...
