#### Frequently Asked Questions

- **What card capacity can be read?**
  - The SD card reader can support memory cards up to 2TB in capacity and can basically meet the read and write needs of most memory cards.
- **What devices are not suitable for card readers?**
  - Mobile phone / iPad / SIM card / Memory Stick (MS) card is not suitable.
- **How to use?**
  - Plug and play: no need extra apps, drivers and power supply. Read flash memory card on computer;

Smart TVs; Portable DVD players and other USB devices.

## Attention

The data transfer rate depends on the speed of the memory card itself and the computer's USB port. With the speed USB 3.0 reader, you can take full advantage of the transfer rates of today's high-speed card formats, including sdxc, micro sdxc, uhs – I.

## usage tips

- The card must be inserted correctly and firmly before use.
