Frequently Asked Questions

Q: What types of memory cards can it read?

A: The card reader can read Socket 1: SD,MINISD, HS MINISD, EXTREME SD, EXTREME III SD, ULTRA II SD, ULTRA II SD PLUS, SD-ULTRA-X, ULTRA SPEED, SD PRO SDHC, SD ELITE PRO, HS SD, MMC, MMC 4.0, HS MMC, HS RS MMC, RS MMC 4.0, MMC MOBILE, MMC MICRO, MMC PLUS, MMC 4.2 (denotes the need for an additional adapter) Socket 2: MICROSD(T-flas)

Q: What should I do if the device does not display anything after I insert the card?

A: Please follow the steps below to check the product. 1. Is the card inserted correctly and tightly. 2. Try to use another card to see if it works properly. 3. All connection points must be clean. If not, wipe them gently with a cotton swab or soft cloth. 4. FAT32 format memory cards do not support transferring individual files larger than 4GB. exFAT format memory cards can support transferring individual files larger than 4GB. If your problem is still not solved, please contact us and we will solve the problem for you within 24 hours.

Q: Do I need to install drivers to use the card reader?

A: Plug and Play: No drivers are required. No additional power supply is required. Backed by Vanja's 18-month warranty and lifetime friendly support.

Q: Can I transfer files while connected to my phone?

A: Yes no problem at all, the product does support file transfer while connected to a phone, as well as between two cards in the slot, and also transfers.

Q: What is the data transfer speed?

: The product is USB 3.0, so the transfer speed is 5 Gbps. however, the read speed depends on the type of card you are using. If you try to read two cards in the slot at the same time, the speed will drop.

Q: How do I know the compatibility of my device?
