Preface

Varmilo comes from Esperanto'Via''armilo' armilo, which means the unique keyboard customized for you. We were born to meet customers' personalities and variety as well as keep good craftsmanship and stable quality. Varmilo is aiming at beautifying your desk setup by endless improvement and boundless innovation!

- By keyboard artist Varmilo

Product Feature

The brand-new Varmilo mechanical keyboard series adopts the Chery MX switches from Germany with stable internal structures and tactility.

Daily Maintenance

To clean a keyboard, pull out the keycaps using a key puller, put the keyboard upside down, pat the back of the keyboard to pour out impurities, and brush off the impurities and dust that are adhered to the keys. If residuals exist, wipe them off using a clean cloth with some alcohol. After that, dry the keyboard in a cool and ventilated place. To

avoid a loose or fallen USB port, do not frequently plug, unplug, drag or bend a keyboard cable.

Layout

Matters Need Attention

- The Bluetooth device must be Bluetooth 5.0 or above.
- All operations combined with Fn key must first press Fn and then press the combined function key to perform the function; the key is released in no particular order.
Indicator Light

Press Fn to check the following indicator lights:

1. Battery indicator light: Green light is on when battery level exceeds 75%, orange light is on when battery level is between 25% and 75%, and red light is on when battery level is below 25%.
2. System indicator light: Green light is on in Mac mode, light off in Win mode.
3. Win indicator light: Red light is on when the Win key is locked, light off when unlocked.
4. Bluetooth channel indicator light: Light is on when connected, light flashes when waiting for connection.
5. 2.4G indicator light: Light is on when 2.4G is connected, light flashes when 2.4G is waiting for connection.

Varmilo Warranty Service Information

- Varmilo provides a one-year free warranty service for keyboards and three months for accessories from the date of order receipt.
- The warranty period is based on this card and the date of purchase. Please keep it properly. If you lose this card, you can still use the purchase voucher (invoice, receipt) and the purchase information of e-commerce as the warranty basis.
- Free warranty service is only applicable to non-human quality problems in normal use. If the product is damaged due to human factors or force majeure, the free warranty service cannot be provided. Human factors include external damage (impact, scraping, etc.), liquid (water, beverage, etc.), unauthorized disassembling, removing the serial number or warranty sticker of the product itself, etc. Force majeure includes the damage caused by flood, dampness, rodent damage and other natural disasters.
- For products with printed patterns on the cases, please avoid wiping with alcohol and use clean water or alcohol-free cleaning products.

Maintenance Instructions

During the warranty period, you can enjoy the free warranty service. If exceeded free warranty period is exceeded, Varmilo will still provide paid maintenance service. Customers could ask for warranty service from where you purchased the products, or contact support@zhihaihe.cn for further assistance.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet the general RF exposure statement.

The device can be used in portable exposure conditions without restriction.
