VeEX FX41xT PON Terminated Power Meter

Product Information: FX41xT PON Terminated Power Meter

The FX41xT PON Terminated Power Meter is a product from VeEX that is designed to measure the power of PON networks. It is a compact and portable device that can be used for testing and troubleshooting PON networks in the field.

Product Features

- Compact and Portable design
- High accuracy power measurement
- Measurement of downstream and upstream power levels
- Supports Triple Play services
- Easy to use interface

Product Usage Instructions

1. Power on the FX41xT PON Terminated Power Meter by pressing the power button located on the side of the device.
2. Connect the device to the PON network using the appropriate connector. The device supports SC/APC, SC/UPC, and FC/APC connectors.
3. The device will automatically detect the wavelength of the PON network. The downstream and upstream power levels will be displayed on the screen.
4. To switch between downstream and upstream power levels, press the "Downstream/Upstream" button located on the front of the device.
5. To save a measurement, press the "Save" button located on the front of the device. The measurement will be saved to the device's internal memory.
6. To transfer measurements to a computer, connect the device to a computer using the provided USB cable. The

measurements can be downloaded using VeEX's VeExpress software.

PLEASE PASS THIS INFORMATION ALONG TO END USERS

Dear Valued Customer,
Thank you and congratulations for purchasing a VeEX® product. This product has been carefully developed and thoroughly tested according to strict company procedures and international standards and is designed to operate reliably for many years to come.
As part of our Green Initiative, VeEX does not include printed manuals with product shipments. They are all available online, with this document serving as a convenient way to access such information. For direct access to documentation and resources, use your smartphone or tablet's camera to scan the following QR codes.

Product Registration

Please register your product to benefit from the warranty, software applications, technical support and specific updates related to your test set. **https://www.veexinc.com/support/productregistration**
Since groups may share test sets, you should also register as a user at **https://www.veexinc.com/register**

Warranty

A printed copy of the warranty coverage is included with the shipping documents. To check the current warranty status of any VeEX product, please visit: **https://www.veexinc.com/support/warranty**

Product Documentation

The latest versions of the product's user manuals, quick guides, application notes, specifications, etc. are available in electronic format from the Resources section on the product webpage:
https://www.veexinc.com/products/fx41xt

Training Videos

For any available tutorial videos, technical articles and technology training videos, see our Multimedia page Here you can filter by content type, markets and technologies:

Software Updates and Companion Utilities

Product software, release notes and companion utilities can be downloaded from the product's page in the VeEX website or in the Software Download page: **https://www.veexinc.com/support/software**
Use >Tools >Utilities >VeExpress >Software Upgrade to download software updates directly to the test set. For more information refer to **https://www.veexinc.com/search?search=software** upgrade

Mobile Applications

Any applicable VeEX mobile apps may be made available in the Apple App Store (iOS), Google Play Store (Android), or directly from the App section on the company's website **https://www.veexinc.com/apps.** When installing VeEX Apps downloaded from VeEX website for the first time, users are required to authorize VeEX as a trusted enterprise developer.

Customer Support
