Important! Use a minimum 15W PD/QC mains plug with the DS-7 to prevent charging intermittency issues.

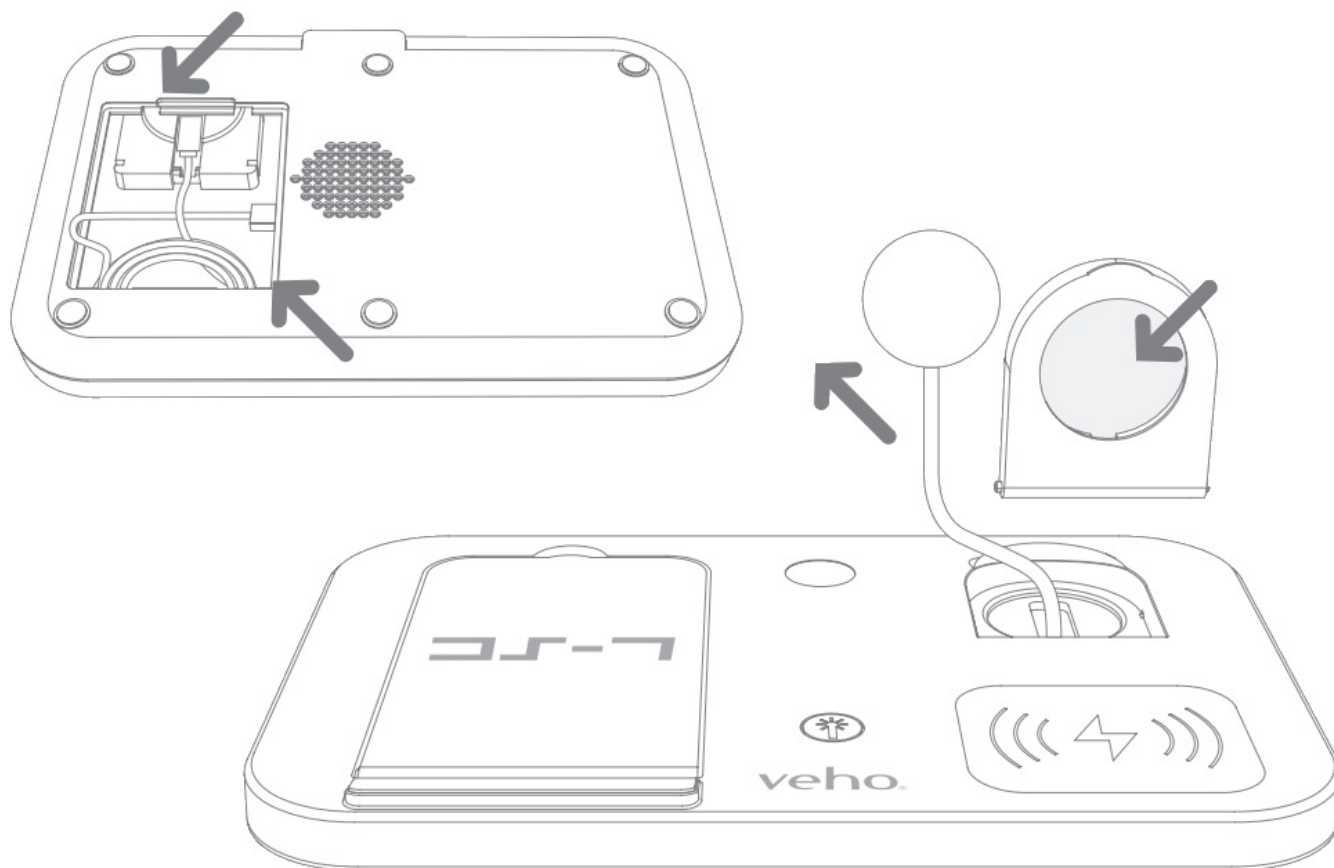

1. Phone pad
2. Watch cradle
3. Backlight
4. Light button
5. Earphones pad
6. USB Output port
7. USB-C input

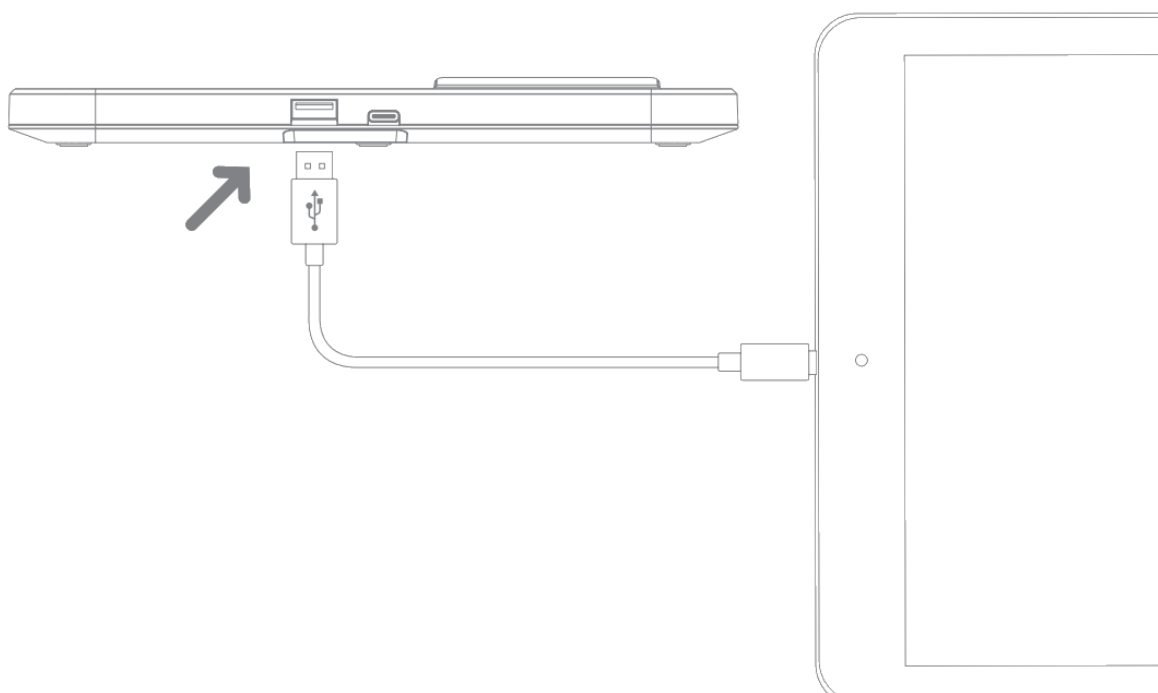

Using the DS-7 With the supplied USB-C charging cable plug the charging station into a compatible power source. Note: To enable fast charging you will need to use a Quick Charge 3.0 adapter (not included).

Charging your devices Place your device(s) on the corresponding part of the charging station, either the smartphone pad, the wireless earphones pad or in the smartwatch cradle. When the charger is correctly charging your device you will see either an on-screen notification or LED indicators depending on the device.

Installing an Apple Watch charging cable Remove the door of the cable storage compartment on the rear of the DS-7, install your Apple Watch cable and plug the USB end into the USB port. Next, place the magnetic base in the watch cradle on the front of the DS-7. Once correctly installed, replace the door on the rear compartment.

Charging a device externally While using the charging cable supplied with your device connect your device into the USB output port on the back of the DS-7. Your device will charge as normal.

Specifications

Input power	DC5V/2A, DC9V/2A
