- The keyboard and mouse are only workable with an AA alkaline dry battery. Please take out the battery and keep it properly when it is not used for a long time. so as not to corrode the parts.

Solutions for Connecting Problems
Mouse

- Plug the USB receiver in the computer port after the mouse is installed with the battery, and keep the distance

between the receiver and mouse within 20cm.

- Simultaneously press the scroll wheel button and the right button for over 3s and the mouse will enter code paring mode.
- It indicates the successful pairing if the mouse movement is responsive on a computer screen in the 20s.

Keyboard

1. Turn on the switch after the keyboard is installed with batteries.
   Plug the USB receiver in the computer port and keep the distance between the receiver and the keyboard within 30cm.
2. Simultaneously press the "ESC" button and "K" key for over 3s and the indicator light turns on showing that the keyboard enters code paring mode.
3. The indicator light of the keyboard will go out if the code pairing is successful.
