AC41 Overview

AC41 Details

AC41 Cassettes

Remove all 5 cassettes from their packaging and insert into the AC41. Ensure the USB-C and other mating features are aligned for correct fitment.
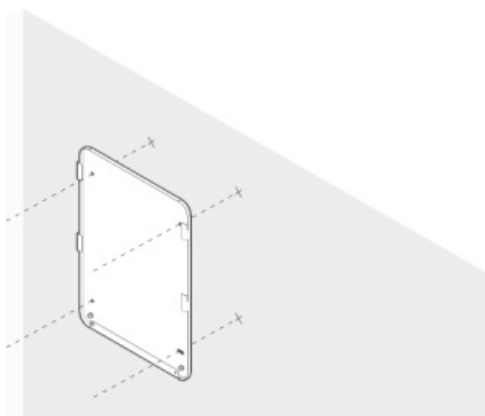

AC41 Mounting

To remove the wall mount, unscrew the two security torx screws from the inside. 11

Once the security screws are fully removed, slide the wall mount down and away from the main enclosure. 12 – mount

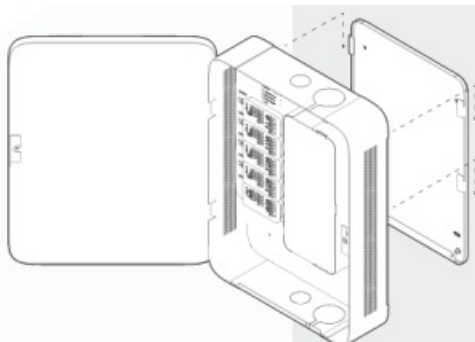

Drill four 5/16″ Ø holes into the wall. Insert the drywall anchors into the holes. Fasten the mount plate onto the wall
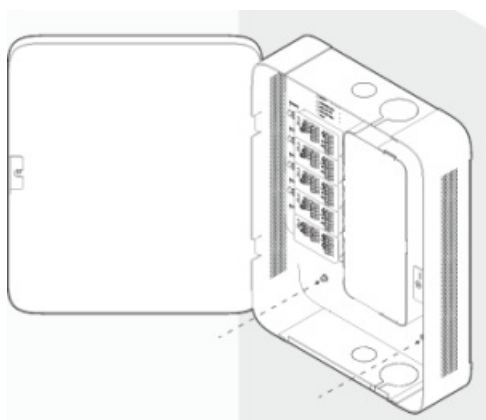

by installing the mounting screws into the wall anchors.

Drill four 5/32″ Ø holes into the wall. Fasten the mount plate onto the wall by installing the mounting screws into the pilot holes. mount – 13
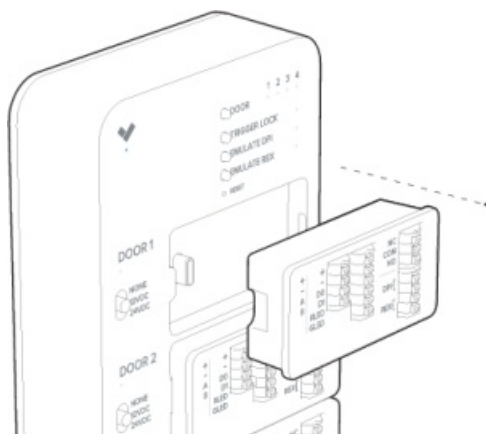

14 – mount

Place the sheet metal enclosure over and onto the mounting plate tabs.

Fasten the two security torx screws to secure the enclosure to the mounting plate. mount – 15
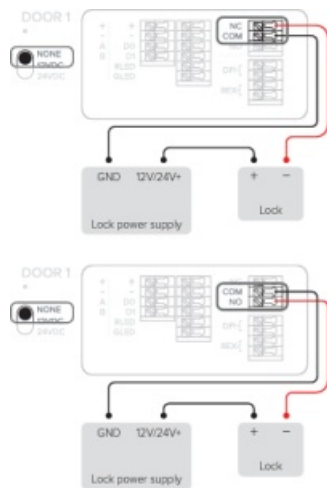

AC41 Connect Door

The AC41 comes equipped with a Form C relay that can be driven dry or wet. AC41 is rated to power 12V locks up to 700mA and a 24V locks up to 350mA.

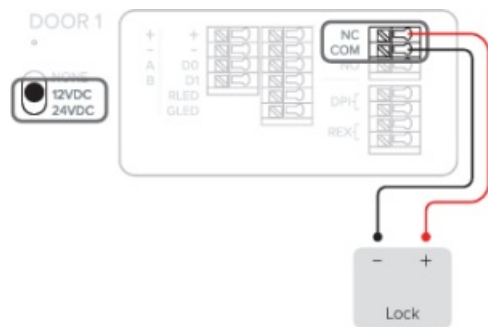

Remove a door cassette from the AC41 by lifting it from the side tabs. 18 – connect door
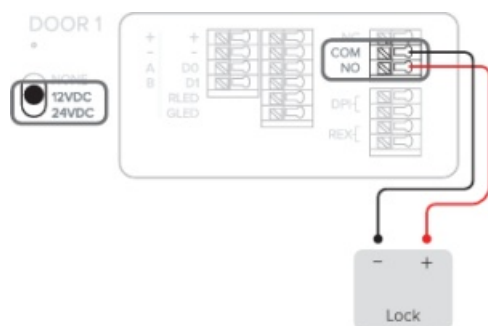

Connect the Lock (Dry) LOCK (+) positive [12V / 24V] goes into NC (fail safe) or NO (fail secure)
LOCK power supply goes into COM

Connect the Lock (Wet 12V / 24V NO-C) If you have a Fail Secure lock, connect to NO-COM.

Connect the Lock (Wet 12V / 24V NC-C) If you have a Fail Safe lock, connect to NC-COM.

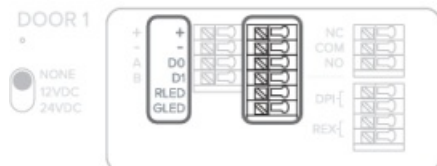

Connect the Reader Verkada AD31 reader (far left port)
Standard Wiegand readers (middle input port)
22 – connect door

Verkada AD31 reader (far left port)

Standard Wiegand readers (middle input port)

Connect the Inputs Door Position Indicator (Door Contact), optional
Request-to-Exit (REX), optional
connect door – 23

Request-to-Exit (REX), optional

AC41 Connect

Connect the AC41 to your network using either of the Ethernet ports located at the bottom of the controller. If you are adding an additional AC41 unit to your system, you can connect ACUs by Ethernet. 25

Connect the AC41 power supply into your standard power outlet (120 VAC). 26 – connect

Connect AC41 to Ethernet. Plug in your AC41 to an AC outlet
