VersionTECH FA-8 Portable Handheld Fan

INTRODUCTION

The VersionTECH FA-8 Portable Handheld Fan is a stylish and useful fan that can be used in a variety of situations. This portable fan has five speeds that can be changed, so it's great for both comfort and cooling. It can be used for two things: when the power goes out or at night, the built-in LED light lets you see. The fan is driven by a 5V rechargeable battery, which makes it easy to take with you and use at home, at the office, or while you're out and about. It's easy to carry around because it folds up and isn't heavy, and the tilt can be adjusted so that the airflow goes exactly where you need it to. With a price tag of \$16.99, this fan is a great deal. VersionTECH made it, and it delivers speed and portability to keep you cool anywhere and at any time.

SPECIFICATIONS

Brand Name	VersionTECH.
Model Number	FA-8
Price	\$16.99
Voltage	5 Volts
Built-In Media	Cord
Switch Type	Push Button
Indoor/Outdoor Usage	Outdoor
Control Method	Touch
Light Type	LED
Is the Product Cordless?	Yes
Number of Power Levels	5
Number of Speeds	5
Wattage	5 watts
Number of Blades	6
Power Source	Battery Powered
Room Type	Kitchen, Living Room, Bedroom, Home Office, Dining Room
Additional Features	Portable, LED Light, Lightweight, Adjustable Tilt, Foldable
Recommended Uses for Product	Cooling
Mounting Type	Floor Mount
Controller Type	Button Control
Item Dimensions (D x W x H)	9 D x 4 W x 1 H inches

WHAT’S IN THE BOX

- Portable Handheld Fan
- USB Cable
- User Manual

PRODUCT OVERVIEW

FEATURES

- **Strong Wind:** It has 7 fan blades that move a lot of air quickly and cool you down in just two seconds.
- **The RGB color light:** Has bright RGB lights that cool you down and give the device a unique look. Perfect for making a point.
- **5 Speed Levels That Can Be Changed:** It has five-speed settings, ranging from a light breeze to a very strong wind, so you can find the right speed for your cooling needs.
- **Portable and Lightweight:** The fan is small and light, so it's easy to take with you when you go camping, travel, or just use it for fun.
- **Battery that can be charged:** The fan has a battery that can be charged via USB from a computer, a power bank, or a wall charger.
- **Battery and USB driven:** It can be driven by a rechargeable battery or a USB cable, so you can choose how to use it.
- **Design that Folds Up:** The fan can be folded up to 120° and hung on different surfaces or used as a desk fan. This makes it useful in a variety of settings.

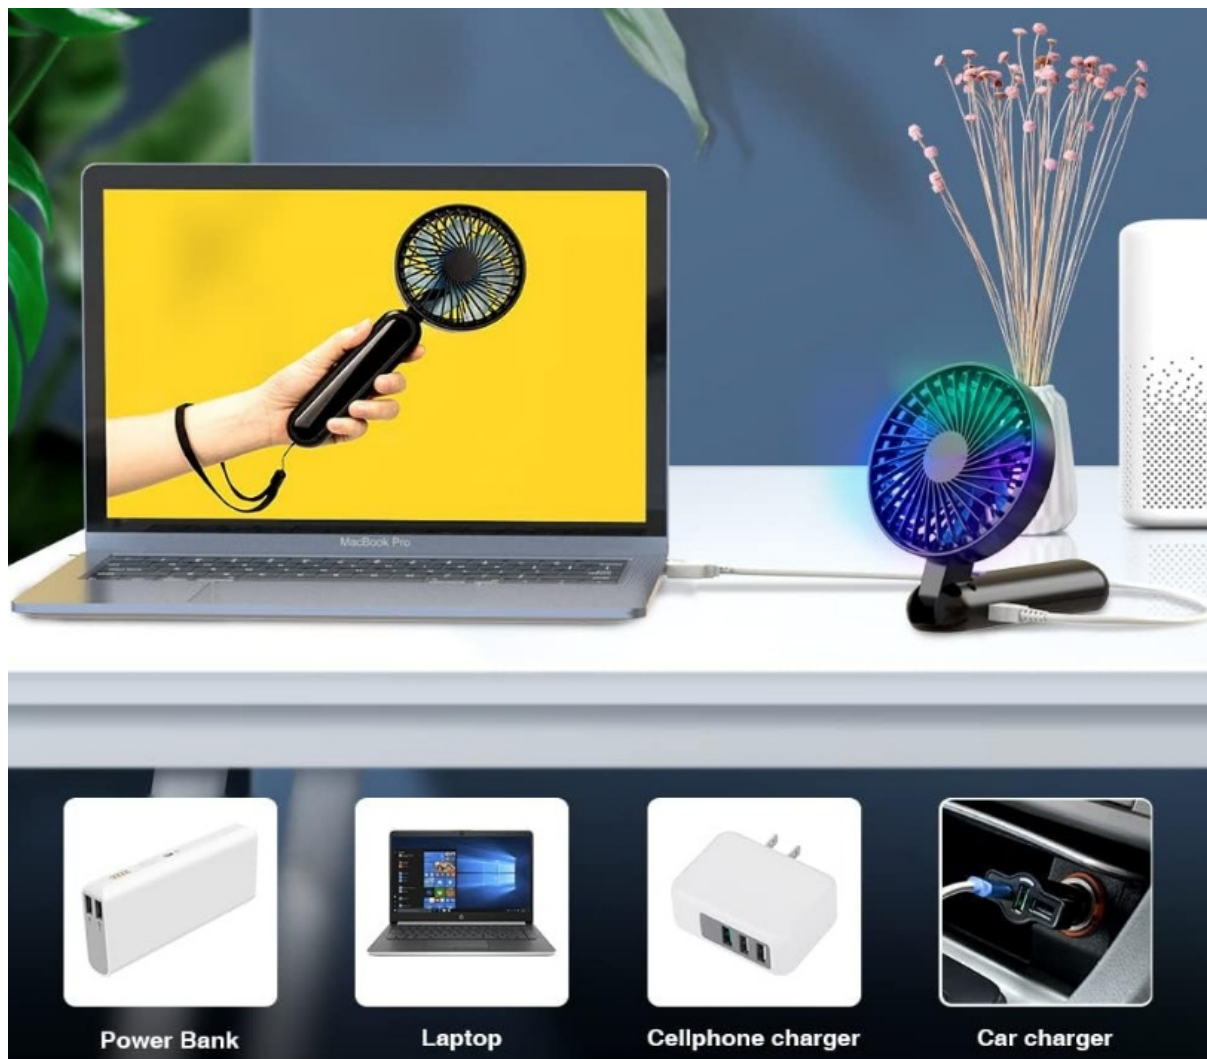

- **Brushless Motor:** It has a strong brushless motor that will last a long time and use little energy.
- **Energy-Efficient:** The power and conversion circuitry are very efficient, so very little energy is lost. This helps save energy and protect the earth.
- **Uses:** You can hold the fan in your hand, put it on a desk, hang it from an umbrella, or clip it to other things.
- **Night Light Function:** It has a night light function with two levels of brightness that can be used as a light source for learning or working.
- **Wide Airflow Range:** The fan can blow air up to 3 meters away, so you can stay cool even if you're not close.
- **Multiple Color Choices:** It comes in many colors, including RGB lights, which make it both useful and stylish.
- **Quiet Operation:** Even though the fan moves a lot of air, it does so quietly, making it perfect for places like schools and offices that need to be quiet.
- **Easy to Use:** The simple push-button control makes it easy to change the speed and use, making it simple to use.

SETUP GUIDE

- **Opening the box:** Take out the fan, USB charging cable, and any other tools that came with it.
- **Insert Batteries:** If you'd rather use batteries, take off the insulation from the battery section and put in the

batteries that you need.

- **Charge the Fan:** To charge the fan, connect the USB cord that came with it to a USB port on a computer, power bank, or adapter.

- **Turn on the Fan:** To turn on the fan, press and hold the power button for a few seconds.
- **Change the Speed:** To go between the five-speed levels, press the power button several times.
- **Use as a Handheld Fan:** Hold the fan by the handle and change the speed to get the wind you want.
- **Use as a Table Fan:** To use the fan as a desk fan, fold it up to 120° and lay it flat.
- **Use as a Hanging Fan:** To cool off without using your hands, attach the fan to a sun cover or something similar.
- **Clip onto items:** The fan's foldable base lets you clip it to different items if you want to change its position.
- **Turn on RGB lights:** Press the button to make the RGB lights work for a cool effect.
- **Change the brightness:** The light control lets you switch between two levels of brightness.
- **Watch the Battery Level:** Check the battery level often and charge it when it's low to make sure you can use it for a long time.
- **If you don't want to damage the fan,** fold it up and put it somewhere dry and cool when not in use.
- **Clean the Fan:** Use a soft cloth to wipe the fan blades and base gently to get rid of dust and dirt.
- **Take Out the Batteries:** If you're not going to use the fan for a while, take out the batteries to make them last longer.

CARE & MAINTENANCE

- **Wipe the fan base and blades down** with a dry cloth every so often to keep them clean.
- **Maintenance for batteries:** If you use batteries, take them out when you're not using them for long periods of time to stop leaks or rust.
- **Charge Often:** Make sure to charge the fan's battery every two weeks, even if it's not being used.
- **Use Only USB Cables That Work:** To keep the charging port from getting damaged, always use the USB charging cord that came with the device or one that works with it.
- **If you don't want to damage the fan,** keep it in a dry, cool place when it's not in use.
- **Check for Wear:** Look over the fan, especially the blades and motor, every so often for any damage or wear.
- **As soon as the battery is fully charged,** disconnect the fan to keep it from overcharging and damaging the battery.
- **Overload the Fan:** Make sure you use the fan at the right speed and for the right amount of time to keep it from overheating or wearing out too quickly.
- **Protect the USB Port:** To make sure the charging works, keep the charge port clean and free of any debris.
- **Handle the fan carefully** when folding it, making sure it doesn't get caught or broken in the process.
- **Keep the fan dry** to keep the electronics inside from getting damaged by water.
- **Be Careful Not to Drop the Fan:** Be careful not to drop the fan, as this can damage the motor and blades.
- **Replace Batteries as Necessary:** If the fan doesn't work right or the battery doesn't last as long, you might want to get new batteries.
- **Use in Places with Good Airflow:** For best results, use the fan in a place with good airflow, especially when it's running at higher speeds.
- **Take It Apart to Clean It Better:** If you need to, carefully take off the fan blades to clean them better.

TROUBLESHOOTING

Issue	Solution
The fan is not turning on	Check if the fan is fully charged.
The fan is not charging	Ensure the charging cable is securely connected.
The fan is not blowing air	Clean the fan blades and check for blockages.
The fan is making a loud noise	Check for dirt or debris in the fan blades.
Speed settings are not working properly	Reset the fan and try again.
LED light is not working	Ensure the light is turned on and check the battery level.
The fan shuts off unexpectedly	Ensure the battery is charged or replace it if needed.
The fan feels too hot to the touch	Let the fan cool down for a few minutes.
The fan is vibrating excessively	Place the fan on a flat surface.
Battery drains too quickly	Avoid using the fan at maximum speed for long periods.
Fan becomes unresponsive	Hold down the power button for 10 seconds to reset.
The fan is not charging properly via USB	Try using a different USB cable or power adapter.
The fan's LED light flickers	Check the battery level or reset the fan.
The fan stops working after a while	Ensure it is charged and check the settings.
The fan is not folding back	Gently adjust the fan's hinge, checking for obstructions.

PROS & CONS

Pros:

1. Its lightweight and portable design makes it easy to carry.
2. Adjustable tilt for personalized airflow.
3. LED light feature for added convenience in the dark.
4. 5 adjustable speed settings for custom cooling.
5. Rechargeable battery for cordless use.

Cons:

1. Only suitable for short periods of intense cooling.
2. Slightly noisy at higher speeds.
3. The LED light may not be bright enough for larger spaces.
4. May require frequent charging with heavy use.
5. Limited to handheld use; no wall mounting option.

WARRANTY

The VersionTECH FA-8 Portable Handheld Fan comes with a **1-year limited warranty**. This warranty covers defects in material or workmanship under normal use. It does not cover damage resulting from misuse, neglect, or unauthorized repairs. To claim a warranty, you will need to provide proof of purchase.

FREQUENTLY ASKED QUESTIONS

What is the brand of the VersionTECH FA-8 Portable Handheld Fan?
