This is the original instruction; please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us for not informing you again if there are any technology or software updates on our product.

Thank you very much for choosing this product. Shelf track is an installation accessory. Please select the appropriate shelf support to work with it before installation. Please read all of the instructions before using it. The information will help you achieve the best possible results.

Product Structure

Dimension Figure	Fit shelf support
------------------	-------------------

Installation introduction

(Note: This product only includes shelf track; other accessories are to be provided by the customer.)

1. Use guide rail positioning to punch holes in the wall.

2. Fasten the guide rail to the wall with screws.

(1) If the wall is a board, screw directly into the board.

(2) If the wall is a brick wall, first knock the expansion sleeve into the wall hole, and then tighten the screw to the expansion sleeve

(3) If the wall is drywall, first screw the aircraft expansion sleeve into the drywall, and then install the screw to the aircraft expansion sleeve.

3. Repeat steps 1 and 2 to install the remaining shelf track and shelf support.

(Note: All shelf tracks must be of the same height)

4. Install shelf support in an appropriate position as required.

5. Finally, place the board on the shelf support.
