Vgate OBD2 vLinker MC Plus Start Car Diagnostic Scan Tool User Guide

**vLinker MC+Start
Guide**
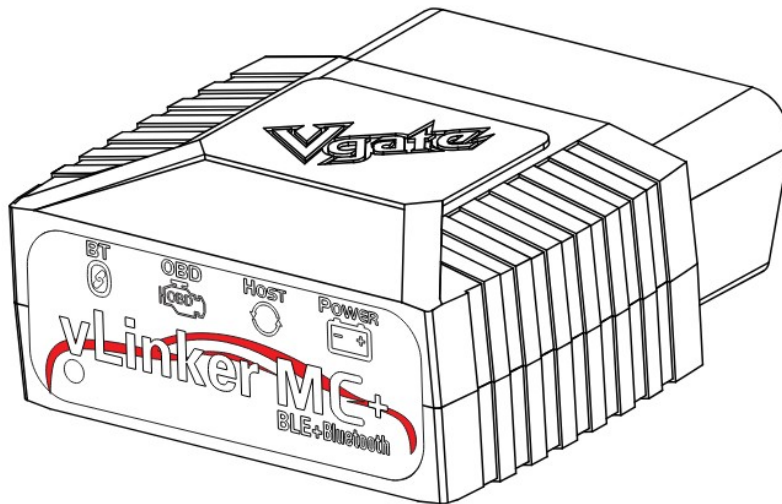

Contents
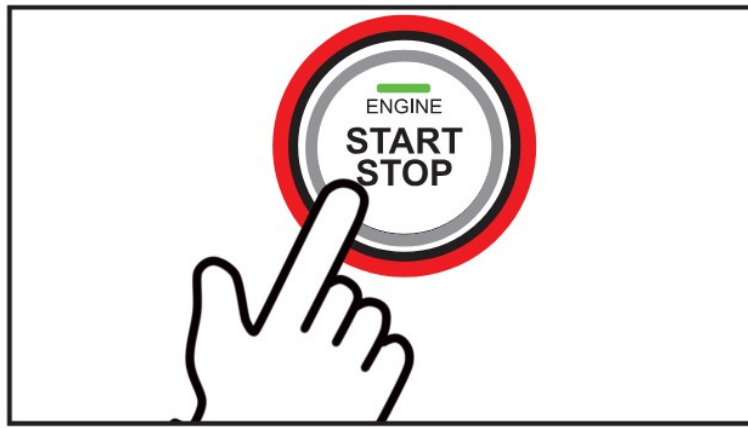

Characteristics:
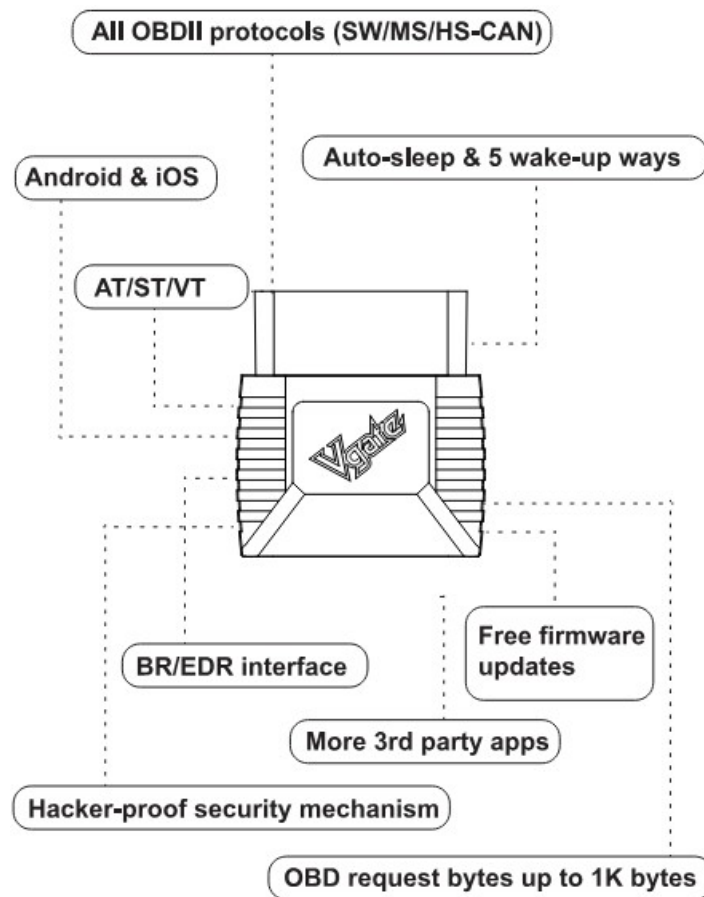

**Steps:**

1. Download the application

Different applications have different connection procedures. Please scan the OR code in the application manual to download the application and view the connection steps.
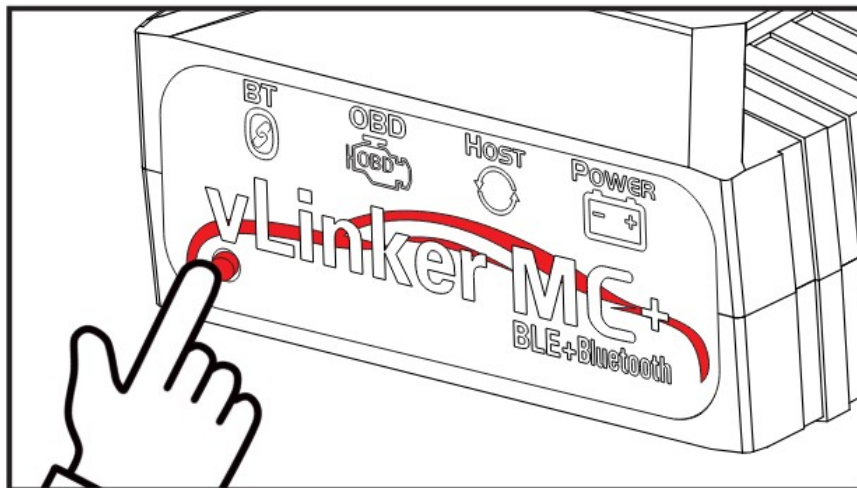

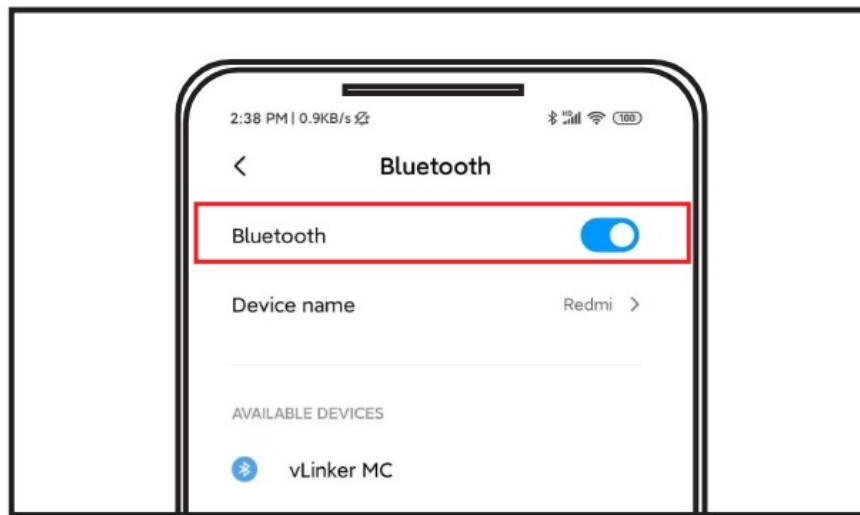

2. Start the engine

3. Plug the vLinker MC+ Bluetooth adapter into the OBD port

4. Press the vLinker MC+ button

5. Find the Bluetooth name of "vLinker MC-Android"

"(When connecting to iOS devices, you don't need to connect to Bluetooth in the settings, Open the app, set the BLE connection in the app and find the "vLinker MC-iOS" connection)

6. Request pairing with the "vLinker MC-Android", pairing code "1234"

Please refer to the QR code for the connection steps included in the application manual.
