## Setting Up the ID1330

### Before Installing

1. Uninstall and completely remove any driver of other graphic tablets/monitors installed on your computer/laptop before.
2. Disable any anti-virus software and firewall temporarily.
3. Make sure you are installing the driver as an administrator.

### Installation

1. Download and install the driver from: <https://www.viewsonic.com/global/products/pendisplay/ID1330>
2. After a successful installation, reboot the computer.
3. Plug in the ID1330 and the system will show the “ViewSonic Pen Manager” icon in the system tray.

### Changing the Pen Tip

1. Pull out the pen nib from the pen by using the nib removal tool.
2. Insert a new nib and push it into the pen.

### Important information

1. The user manual is uploaded into ViewSonic product page. It provides detailed information in using and customizing your ID1330
2. You may find a solution from FAQ if you have any questions with ID1330
