VIMAR 30397 LINEA Removable Emergency Torch

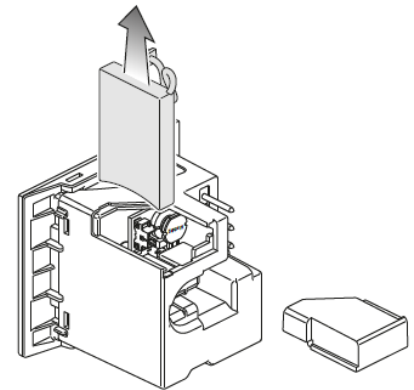

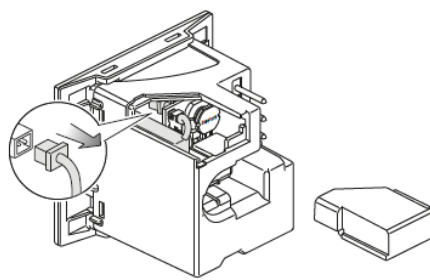

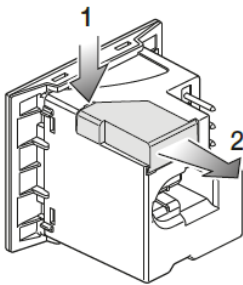

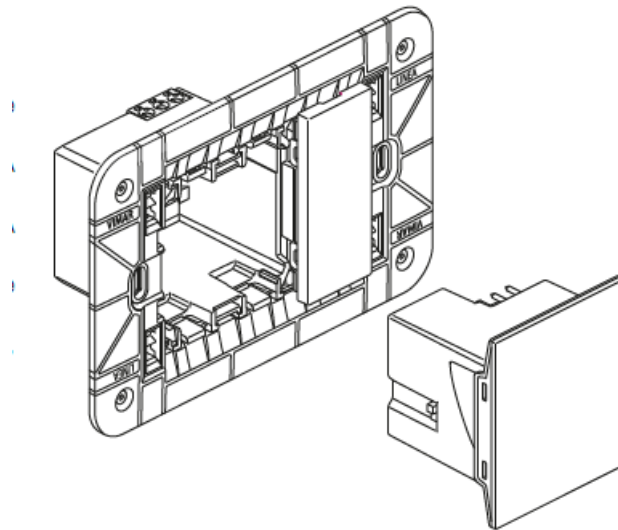

Instruction

1-way switch Interrupteur

Install the socket outlet on the mounting frame then insert the TORCIA hand lamp.

FEATURES

- Rated voltage 100-240 V~ 50/60 Hz
- Luminous flux of light source 40 lm
- Absorption 1 W
- Device in class
- Replaceable rechargeable Li-ion battery 3.7 V 250 mAh (art. 00914)

BATTERY REPLACEMENT

Follow the instructions provided in the figure for replacement, taking care not to invert the polarity of the connector. Do not throw the battery into fire or heat it. Do not short-circuit the battery. Do not unwrap the battery or modify its structure.

ATTENTION: Dispose of the batteries in special waste containers

INSTALLATION RULES

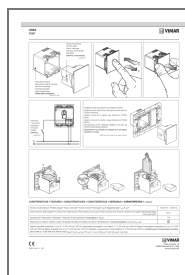

The device must be installed in flush mounting boxes or surface mounting boxes with Linea mounting frames and cover plates. Installation must be carried out in line with the direction of the UP arrow engraved on the body of the TORCIA hand lamp. The battery or the entire lighting fitting must be replaced when it no longer assures the declared operating time (the LED cannot be replaced).

DEVICE DETAILS AND WEEE INFORMATION CAN BE DOWNLOADED IN PDF FORMAT FROM THE PRODUCT DATA SHEET ON www.vimar.com.
