(Up To 100W)

SETTING UP THE DOCK

Windows PC Dock Setup
Plug in your VT400 docking station and allow Microsoft Windows to initialize the docking station.

To configure your displays, right-click on the Desktop and select Display Settings.
Set your layout and display resolutions and apply any changes.
macOS Dock Setup
Plug in the VT400 docking station and allow macOS to initialize the docking station.
To change preferences and configure displays, choose the Apple menu > System Preferences, click Displays, then click Display.

INTRODUCTION

Your new USB-C Portable Station can connect to any host with Type-C connectors that support DisplayPort over USB-C providing a future-proof docking solution. Connect up to two additional monitors as well as 2 USB type-A and 1 USB Type-C accessory through a single USB-C cable.
The Dual 4K Docking Station Software allows full configuration of all additional USB displays, including:

- Expand USB 3.0 connectivity
- Supports Single DisplayPort 4K @ 60Hz
- Supports Single HDMI 4K @ 60Hz
- Supports Dual Displays 4K @ 30Hz
- Supports extended and mirrored modes via MST (only mirrored when 2 displays are connected on macOS)
- Extend left, right, above, or below
- Rotation
- Layout of displays
