VOOPOO

Voopoo ARGUS G2 Pod System

OVERVIEW

Thanks for your purchase of a VOOPOO product. For better use of all the functions of this product, please carefully read the operation notes and detailed functional instructions before your first use of this product. If you have any problem with using this product, please contact our local agent or visit our official website at www.voopoo.com.

Parameters

- **Size:** 121*26.4*15.2 mm
- **Power Range:** 5-30 W

- **Battery:** 1000 mAh (Built-in)
- **Output Voltage:** 3.2-4.2 V
- **Charging Voltage:** 5 V/2 A
- **Resistance Range:** 0.4-3.0 Ω
- **Capacity:** 3 mL (Standard & US Version) /2 mL (TPD Version)
- **Resistance:** 0.4 0/0.7 9

Steps

Step 1. Fill e-liquid

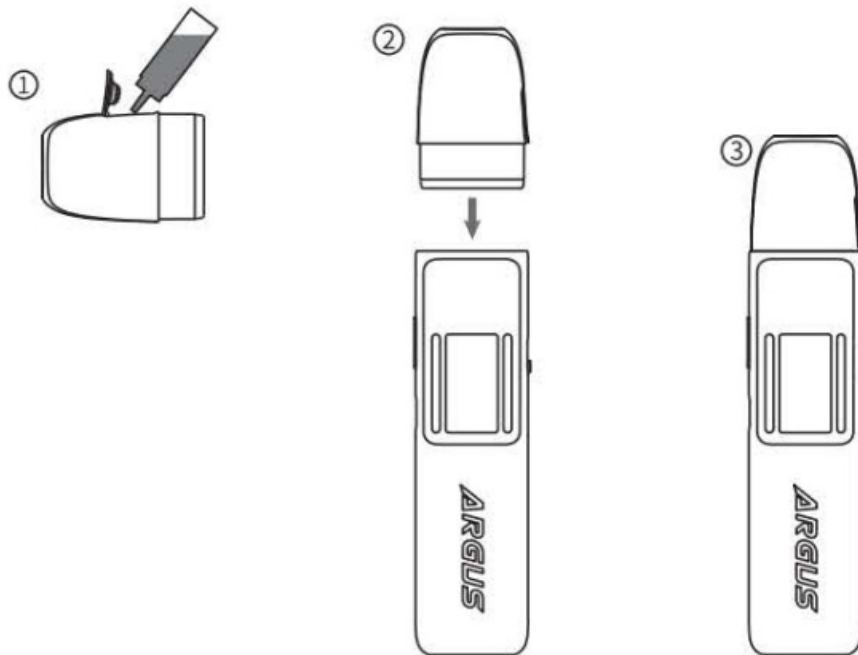

Uncover the filling port and fill the e-liquid in. It is recommended to keep two-thirds full.

Step 2. Install the atomizer

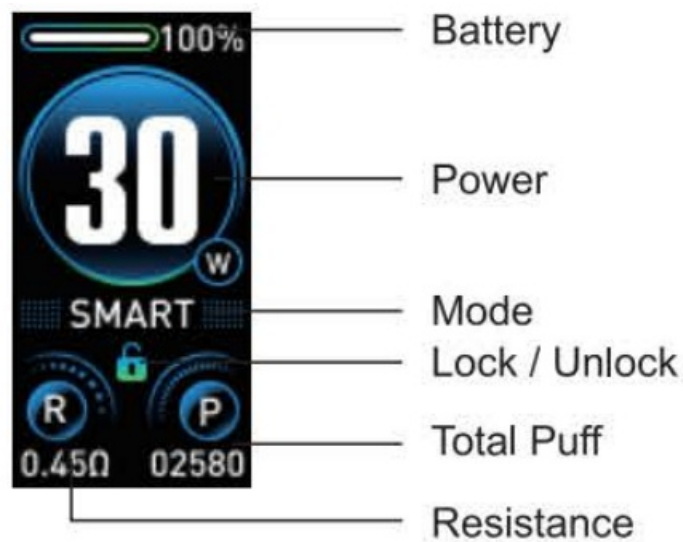

Insert the atomizer into the mod.

Step 3. Start to use the device

Let the coil saturated for about five minutes and you are free to use the device. You can adjust the airflow for optimal vaping experience.

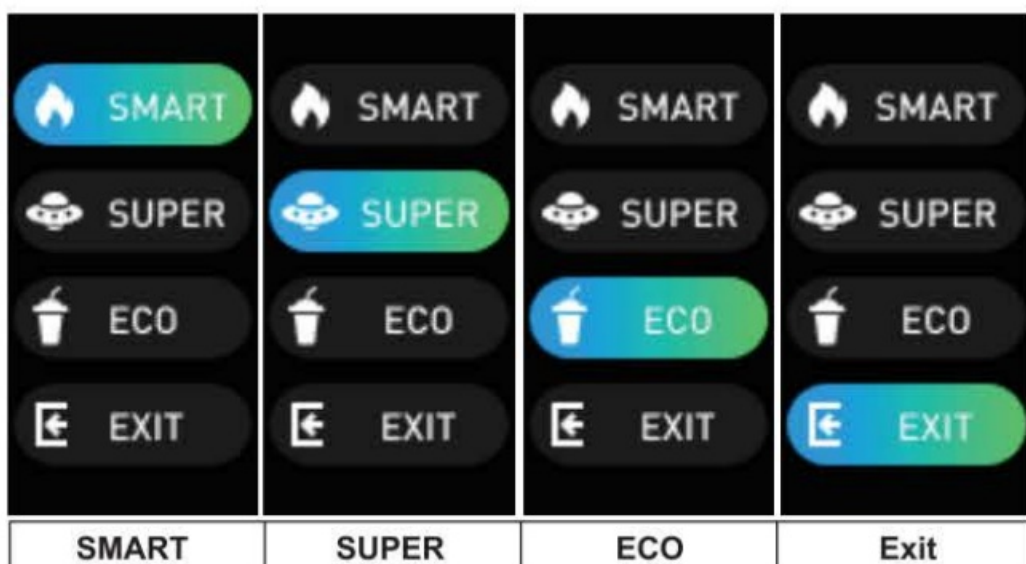

Interface Introduction

Operation Instructions

1. Power On: Short press the fire button 5 times.
2. SMART / SUPER / ECO / Exit: Short press the button 2 times to enter the menu and short press the button to select the function. Long press to confirm the function. Press and hold the Exit to return to the home screen.

Power Off / Puff Clear / Lock – Unlock / Light On – Off / Exit :

Short-press the button 5 times to enter the menu and short-press the button to select the function. Long press to confirm the function. Press and hold the Exit to return to the home screen.

Timeout Protection

If the fire button is accidentally activated for 5 seconds while it is unlocked, it will be automatically locked and prompt timeout protection. Please press the fire button to unlock the device.

Prompt Notification

Charging	Check Battery	Time Out	Check Atomizer	Low Power	Temp High

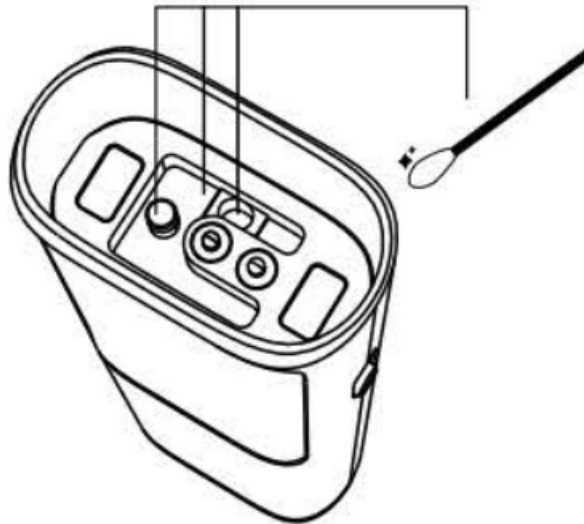

Safety Protection

- Overtime Protection: 5s
- Short-circuit Protection
- Overcharge Protection
- Low Battery Protection
- Output Over-current Protection

Maintenance and Cleaning

1. When using the device, you may notice occasional liquid condensation on the outside of the cartridge. The physical law determines that the e-liquid will atomize and then condense to form condensate, which is inevitable.
2. In daily use, wet paper can often be used to wipe the connection between the device and atomizer to avoid poor connection between the device and atomizer.

3. When a small amount of condensate is found inside the device during use, we recommend pulling out the atomizer, reversing the device, and shaking it for a few seconds.

Notes

1. This product is not recommended for minors, non-smokers, pregnant or breastfeeding women, or anyone at risk of heart disease, depression, or asthma.
2. Please keep the device away from heat, fire, and water. This device should be stored in a cool and shady environment.
3. Please do not drop, throw, or immerse the device in the water.
4. Please turn off or lock the device to avoid accidental firing when you carry it out.
5. Please rationally use the device according to your situation. If discomfort occurs, please stop using it immediately.
6. EEE Recycling: This product should not be treated as household waste, instead it should be taken to the collection place for the recycling of electrical and electronic equipment.
7. Battery Recycling: The battery of this product should not be treated as household waste, instead it should be taken to the used battery collection place for recycling.
8. It is recommended to use the USB cable provided by VOOPOO to charge the device.
9. During the long-term unused period of the device, it is recommended to charge the device regularly to prevent discharge!
10. The storage period of the equipment shall be within 3 months: the ambient temperature ranges from -5 – 30 C, with humidity 25 % and 75 %RH. Operating temperature of electronic cigarette: 0 C-40 C!
11. Disassembly is prohibited after product failure!
12. Only for indoor charging, please use a UL-certified USB charger to charge the device to avoid the danger of fire and explosion!

Warranty (Quality Assurance Certificate)

VOOPOO will provide repair or replacement under warranty according to the following terms and conditions.

- A. Warranty provides repair or replacement free of charge for defective eligible VOOPOO merchandise within

90 days of purchase by the end user.

- B. This warranty is void in the following circumstances:
 - The customer does not provide this warranty card and the original receipt of purchase.
 - Merchandise failure or damage is caused by improper use or unauthorized adjustments.
 - Merchandise failure or damage because of excessive force or impact and unrecommended operating conditions (see user manual).
 - Merchandise failure or damage by cause of water or other conducting liquids.
 - Merchandise failure or damage by cause of usage with components unsuggested by VOOPOO.
 - C. The warranty does not cover personal items or consumable goods and attachments, including but not limited to mouthpieces, coil heads batteries, and USB cables.
 - D. The warranty does not cover any non-VOOPOO brand products even in case of their direct involvement.
- VOOPOO reserves the right to the final decision in all warranty cases. VOOPOO may interpret and revise the content of this warranty card. For more information, please visit our website at www.voo poo.com or email us at support@voo pootech.com.

Warm Prompt

Pod Leakage

There is a possibility of e-liquid leakage at high pressure when you travel by air. Therefore, please keep your pods away from other important objects.

Deal with Condensate

There may be slight condensation due to the difference between indoor and outdoor temperatures when you use the device. It is advisable to take out the pod and shake it downwards.
