## MOUNTING INSTRUCTIONS

With the VTech® Stack and Slide Penguin Pals, safety comes first. To ensure your child's safety, adult assembly is required.

1. Choose a surface on the wall surrounding the bath where the suction cup support unit can be mounted securely. The area should be clean and dry before suctioning the unit to the wall. For better suction, we suggest wetting the suction cups before attaching them to the wall. Press the suction cups onto the wall to secure the suction cup support unit. Once the unit is attached to the wall, test the strength of the suction by pulling gently on the unit. The suction cups may not stick properly to textured tiles. We recommend that the unit be removed from the wall after each use as the strength of the suction cups cannot support prolonged use.

2. To remove the unit from the wall, pull the tab on the suction cup and pull the Stack and Slide Penguin Pals gently.
