Product Usage Instructions

Getting Started:

1. **Connect the power supply:**
   Use the power adapter supplied with the product and plug it into the DC power port.
2. **Connect with computer:**
   Insert the USB-C cable into the USB-C upstream port on the back of the product and connect to the full-featured USB-C port of the computer.
3. **Press the power switch:**
   Once the power button is pressed, please allow a short amount of time for the device to boot.
4. **Install DisplayLink driver (if required):**
   Go to DisplayLink official website to download and install DisplayLink driver: **Download DisplayLink Driver**
   For Windows 7~10 operating system: DisplayLink software can be installed from Windows update, or download and install the software from DisplayLink website, please refer to **DisplayLink Windows Installation Guide**
   For MacOS users, specific setup instructions are provided in the next sections.

MacOS Setup Instructions:

1. **MacOS 10.13, 10.14, and 10.15 Users:**

After installing the driver, enable the kernel system extension in the Security and Privacy Preferences. Refer to:
Kernel System Extension Setup for MacOS

2. **MacOS Catalina 10.15 Users:**

MacOS 10.15 requires users to allow "screen recording" for DisplayLink devices to function properly. Refer to:
Screen Recording Setup for MacOS Catalina

FAQ

Q: What should I do if I encounter intermittent faults with the device?

A: If you experience any intermittent faults with the device, please contact your dealer with detailed descriptions of the issue. This will help ensure that all faults are addressed properly.

Q: Where can I find more information and support for this product?

A: Visit our website at **www.purelink.de** or check out our support page at **help.purelink.de** for additional information and support resources.

Product Details

Getting Started

1. **Connect the power supply**

   Use the power adapter supplied with the product and plug it into the DC power port.

2. **Connect with computer**

   Insert the USB-C cable into the USB-C upstream port on the back of the product and connect to the full-featured USB-C port of the computer.

3. **Press the power switch**

   Once the power button is pressed, please allow a short amount of time for the device to boot.

4. Install DisplayLink driver (if required)

   Go to DisplayLink official website to download and install Displaylink driver:

   https://www.displaylink.com/downloads

   Windows 7~10 operating system:

   DisplayLink software can be installed from Windows up-date, or download and install the software from Display-Link website, please refer to **https://support.displaylink.com/knowledgebase**

   MacOS 10.13,10.14 and 10.15

   Users must enable this kernel system extension in the Security and Privacy Preferences after installing the driver.

   To set this up, please refer to: **https://support.displaylink.com/knowledgebase**

   MacOS Catalina 10.15

   MacOS 10.15 requires users to allow „screen re-cording" in order for DisplayLink devices to work properly.

   To set this up, please refer to: **https://support.displaylink.com/knowledgebase**

5. **Restart the device**

   After the driver installation is complete, restart the device, and you can start using it after a while.
