

Walker Filtration T Series Filtration Pump With Timer Owner's Manual

The T series is equipped with an autonomous timer integrated into the terminal box. The basic cycle is 24 hours (i.e. one day) in which an operating range of 2H, 4H, 6H, 6H, 6H, 8H, 8H, 10H, 12H, 14H, 16H or 24H can be set

Example: The timer will start every day at the time you made the setting. At 8:00 am, you choose the 2H range, the pump will run for 2 hours, i.e. until 10:00 am then the water pump will stop until 8:00 am and so on until you have made a new setting.

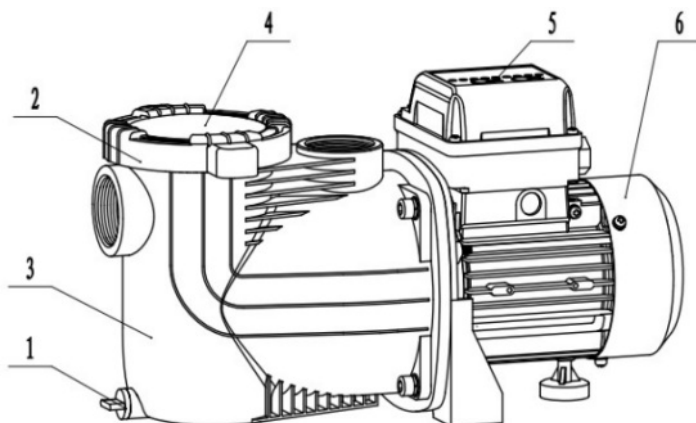

The timer is self-powered by a battery. In the event of a power failure, the settings are stored in memory

Example: In the event of a power failure between 9:00 a.m. and 12:00 p.m., the pump will run properly from 8:00 a.m. to 10:00 a.m. the next morning.
