## Walmart CMS01 Mobile Mouse

Thank you for choosing Smart Mouse

Please read the manual carefully before using this product

## Product Description

The smartphone mouse is a palm mouse connected to a smartphone. It can relieve the effects of sleepiness and spasm caused by holding a wide and heavy mobile phone for a

longtime.

## Instructions

1. Select the matching system mouse corresponding to the mobile phone system, there are Hongmeng system/ IOS system and Android system/ IOS system, support IOS13 and above
2. Connect to Bluetooth: Press and hold the confirm button and the return button for 5 seconds, and connect when the green indicator flashes quickly
3. Roller  
Function 1: The front and back of the scroll wheel is the function of page up and down.  
Function 2: Press the wheel to return the key
4. Touch pad  
Function 1: Mouse pointer direction  
Function 2: Press the touch pad as the confirmation key Touch pad auxiliary function, press and hold for two seconds, the device is turned on, and the indicator light is on
5. Thirty seconds of inactivity, the device will automatically sleep
6. Touch any key to wake the device
7. The device will automatically shut down if there is no operation for one minute  
Please read the manual before using the product

## Battery usage warning

## Charging method:

It is recommended to use the wiring to charge the mouse. When charging, the red light at the wheel will always light up and then the green light will turn on after it is fully charged, about 1 hour.

## Common problems with the mouse

1. Can't connect with Bluetooth:  
Please check whether the mobile phone has the Bluetooth function turned on. The

icon on the taskbar of the receiver is gray when the phone is not turned on, and blue when Bluetooth is turned on.

2. Some APPs have some mouse function defects: Due to the different definitions of each APP, this product is only applicable to most APPs, such as Douyin, Baidu, and NetEase. Some functions of apps such as Kuaishou and Zhu Xiaobang will be defective
3. Apple mobile phone is slow or very sensitive problem Because the IOS system needs to match the response speed of the mouse, it is necessary to adjust the speed of the little turtle in Settings Accessibility-Assistive Touch> Tracking Sensitivity. Each user adjusts according to their own habits. To the right is sensitive, and to the left is insensitive.

### **After sales question**

## FCC

Federal Communications Commission (FCC) Statement. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by may void the FCC authorization to operate this device.

### **Shantou Yujinlong Toys Co., Ltd.**

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

### **RF exposure statement:**

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device is installed and operated without restriction.
