How to Set Night Mode

Night Mode

On activating the night mode, the dispenser enters a silent state, and the water filtering and refrigeration functions are paused for the set period. To turn off the mode, tap the right key”>” to access the night mode interface and select” OFF”

- **Step 1:** Tap the right key”>” on the water dispensing interface to access the night mode option, then tap the confirm key” “
- **Step 2:** On the night mode interface, use the left key”<” or the right key”>” to select” ON “or” OFF “
- **Step 3:** Select “ON” and tap the confirm key” “

- **Step 4:** If the time is not set, it will automatically skip to the time setting interface (see page 10 to learn how to set the time).
- **Step 5:** Set the desired turn-on and turn-off time on the time setting interface by tapping “<” or “>” and tap the confirm key” “ Then select ” YES “to confirm and save the settings, or select ” NO “to return to the water dispensing interface, thereby discarding the earlier setting.
