## 83 69 66 Key Storage Security Log

### Dear Customers,

Instruction manuals provide valuable hints for using your new device. They enable you to use all functions, and they help you avoid misunderstandings and prevent damage. Please take the time to read this manual carefully and keep it for future reference.

If you pass the device on to third parties, enclose these instructions.

Shutter Hatch
Dials
Storage Compartment Door
Screw Hole
Storage Compartment
Reset Lever
Installation Screws and Wall Plugs (4X)

## SAFETY NOTES AND OPERATION

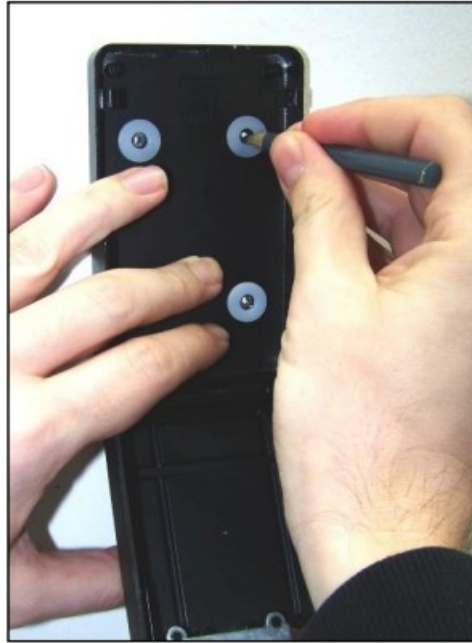

Please note the following safety notes to avoid malfunctions, damage or physical injury:

- Please read this manual carefully and use the device only according to this manual.
- Dispose of used packaging material carefully or store it out of the reach of children. There is a danger of suffocation!
- The key storage security lock is not a toy. It does not belong into the hands of children.

## Wall Mounting

1. Swing open the storage compartment door (3) and stick the self-adhesive plastic rings from the inside on the screw holes (4).
2. Position the key storage security lock on the desired mounting surface. Use a spirit level to obtain a perfect alignment of the security lock.
3. Use a pencil to mark the position of the screw holes on the surface.
4. Remove the key storage security lock from the wall and drill four holes at the marked locations.
5. Use the provided wall plugs and screws (7) to mount the storage key security lock on the wall.

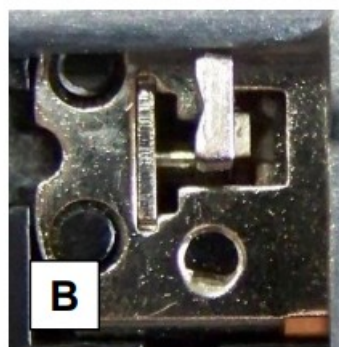

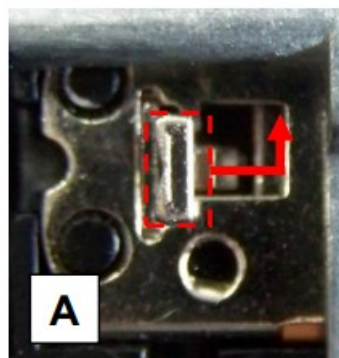

6. Close the storage compartment door (3) and the shutter hatch (1).

### Opening the storage compartment door

1. Pull down the shutter hatch (1).
2. Use the dials (2) to dial the existing combination (factory default 0.0.0.0).
3. Swing open the storage compartment door (3) to open the key storage security lock.

### Setting up a new combination

1. Open the storage compartment door (3) to reveal the setting mechanism.
2. Move the reset lever (6) from its original position (figure A) to the right and up. The reset lever snaps in this new position (figure B).

3. Rotate the dials (2) to your preferred combination (0.0.0.0 – 9.9.9.9).

4. Return the reset lever to its original position (figure A) by moving it a bit to the right. Then it can be spring closed to the down left position.
5. Double-check the new combination.
6. Close the storage compartment door(3).
7. Scramble the combination dials to lock the door.
8. Close the shutter hatch (1).

#### Notes:

- Mount the key storage security lock in a discrete location out of direct eye line.
- Keep shutter hatch (1) closed to increase weather resistance.

#### Cleaning and Care

- Use a dry or lightly moistened cloth to clean the key storage security lock.
- Do not clean the device with aggressive detergents or chemicals.
