DEAR CUSTOMERS,

Instruction manuals provide valuable hints for using your new device. They enable you to use all functions, and they help you avoid misunderstandings and prevent damage. Please take the time to read this manual carefully and keep it for future reference.

If you pass the device on to third parties, enclose these instructions.

SAFETY NOTES

Please note the following safety notes to avoid malfunctions, damage or physical injury:

- Please read this manual carefully and use the device only according to this manual.
- Dispose of used packaging material carefully or store it out of the reach of children. There is a danger of suffocation!
- Persons with limited physical, sensorial or mental abilities are not allowed to use the device, unless they are supervised and briefed for their safety by a qualified person.
- Keep the clock out of the reach of children. It is not a toy.
- If you do not plan to use the clock for some time, remove the battery.
- Do not disassemble, burn, or short-circuit batteries and do not attempt to recharge non-rechargeable batteries.
- Do not mix rechargeable batteries and non-rechargeable batteries and use only batteries of the same type.
- Do not expose the unit to direct sunlight, dirt, high temperature, strong light or strong magnetic fields.
- Do not immerse the clock in water or any other liquids.
- Do not disassemble the unit or attempt to repair it yourself. It does not contain parts serviceable by you. In the case of questions or problems, turn to our customer support.

Batteries do not belong in the household garbage. For battery disposal please check with your local council.

OPERATION

Inserting the Battery

1. Press the latch of the battery compartment cover and flip open the cover.
2. Insert one LR6 (AA) battery in the battery compartment with the plus pole first. Please observe correct polarity.
The polarity symbols are shown in the battery compartment.
3. Close the battery compartment lid.

Setting Time and Alarm Time

On the back of the unit you can adjust the time with the time set turning knob on the right hand side.
Use the alarm set knob on the left hand side to adjust the alarm time.

Activating Alarm Time

1. To activate the alarm, press the button repeatedly until it is in the upper position.
2. To turn off the alarm press the button in such a way that it is in the down position.

Thermometer

The current temperature is shown in °C on the display

Cleaning

- Clean the clock with a lightly moistened cloth only. Do not use aggressive chemicals or abrasives.
- Do not allow liquids of any kind to enter the housing.
- Store the clock in a dry place and protect it from dust and dirt. Remove the battery if you do not use the clock for a long period of time.
