Clear Pairing: The receiver (valid for 10 seconds before powering on), the Transmitter (Press and Hold the brightness button for 2S), and the Yellow light flashes when the clearing is successful

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B

digital device, according to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used under the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure conditions without restriction.

FAQ

How do I pair the remote controller?

To pair the receiver, ensure it is valid for 10 seconds before powering on. For the transmitter, long-press the switch button for 2 seconds. A white light will flash when pairing is successful.

How do I clear pairing settings?

To clear pairing, make sure the receiver is valid for 10 seconds before powering on. For the transmitter, press and hold the brightness button for 2 seconds. A yellow light will flash when clearing is successful.

What should I do if I encounter interference issues?

If you experience interference, consider reorienting or relocating the receiving antenna, increasing separation between devices, connecting to a different outlet, or consulting a professional for assistance.

Is there any restriction on RF exposure with this device?

The device has been evaluated to meet general RF exposure requirements and can be used in portable exposure conditions without restriction.
