WiZ Connected 605675 LED Smart Light Bulbs

Launch Date: August 27, 2020.

Price: \$10.99

Introduction

For trendy lighting that you can change, the WiZ Connected 605675 LED Smart Light Bulb is the best choice. With 16 million colors, lighting that can be changed, and low energy use, it makes any room feel better. Voice control through Alexa, Google Assistant, and Siri Shortcuts is possible with this smart bulb, making it easy to use without using your hands. It connects to Wi-Fi straight, so you don't need any extra hubs. It works with the Matter protocol and comes with pre-set scenes and smart plans, so it fits right in with any smart home setup. The bulb is made to last, and it does so for 25,000 hours. The WiZ Connected 605675 can be used for many things, like decoration, relaxation, or work.

- **Material:** Synthetic Polymer (PMMA)
- **Base Type:** E26
- **Controller Type:** Google Assistant, Amazon Alexa
- **Connectivity Technology:** Wi-Fi
- **Control Method:** Voice and App
- **Unit Count:** 1 Bulb
- **UPC:** 046677605674
- **Manufacturer:** Signify North America Inc.

Package Includes

- 1 x WiZ Connected 605675 LED Smart Light Bulb
- 1 x Quick Start Guide
- 1 x Warranty Information Card

Features

1. Lighting that can be changed

With the WiZ 605675 LED Smart Bulbs, the lighting is bright and lively. You can make the perfect lighting for any event with 16 million color choices and white light that you can change from cool to warm. You can turn down the lights to make the room feel cozier or turn them up to get work done. You can save your favorite lighting choices as custom scenes and then use a tap or voice command to bring them back.

2. Using your voice

You can control your lights without using your hands because it works with Amazon Alexa, Google Assistant, and Siri Shortcuts. To make the lights dim, change colors, or turn them on and off, all you have to do is tell your chosen assistant what you want to do.

3. Connectivity to Wi-Fi

You don't need any extra gear or a hub. You can connect these bulbs straight to the 2.4 GHz Wi-Fi network in your home. With this easy setup, the WiZ Connected app makes it easy to control your smart lights.

4. How to Save Energy

Even though they only use 8.8W of power, the WiZ Connected 605675 Smart Bulbs are as bright as a regular 60W electric bulb. This makes them very energy-efficient, which saves money on power costs and is good for the environment.

5. Schedules that work

You can set up the WiZ app to change your lighting instantly at different times of the day. Set times to gradually turn up the lighting when you wake up, relax with warm tones in the evening or turn off the lights at night. With these automated choices, daily life is easier and faster.

6. Scene Settings

Scene modes like "Cozy," "Focus," "Relax," and "Party" let you change your surroundings right away. These modes are designed to give you the best lighting for different tasks and moods. You can also set the lights to play music for parties or soothing sounds for meditation.

7. **Many-User Control**

Use the WiZ app to give family members access. Everyone in the house can use their own devices to control the lights, making it easy for everyone to work together and enjoy the lighting.

8. **For a long time**

With a life span of up to 25,000 hours, the WiZ Connected 605675 LED Smart Bulbs are built to last. This makes sure that it works well over time, so you don't have to change it as often.

9. **Activate by Moving (Feature of SpaceSense)**

You can use the SpaceSense tool in the WiZ app if you have at least two WiZ lights in the same room, but at least 2 meters apart. Motion will make the lights turn on or off instantly, so you won't need any extra sensors.

10. **16 Million Shades**

With millions of colors to choose from, you can make the right lighting for any event. There are a lot of options, from bright party colors to soothing tones for relaxing. When you find the right mix of colors, save it so you can get to it quickly.

11. **Lights that focus on people**

Enhance your daily tasks with lighting choices that are designed with people in mind. Whether you're working or just relaxing at night, you can pick from different shades of warm to cool light to suit your needs. Having preset modes like "Focus" or "Relax" makes it easier to find the right setting for your needs.

12. **Simple to set up**

It is easy and quick to set up the WiZ 605675 Smart Bulb. Put the light bulb in place, get the WiZ Connected app, and link it to your 2.4 GHz Wi-Fi. You don't need any hubs, gates, or other hardware.

13. **Simple to Use**

You can control your lights in any way you like:

- On a smartphone, use the WiZ app to get the most out of it.
- **Voice commands:** Connect to Siri, Google Home, or Alexa.
- **WiZ Remote Control:** A dedicated remote makes control easy.
- **Wall Switch:** Use your current wall switch to switch between two pre-set modes.

14. **Not hard to automate**

Set up custom schedules and habits for your lights to do things for you. Based on what you do each day and each week, the WiZ app lets you set times for your lights to turn on or off, change colors, or make them brighter. You can control your lights from afar, even when you're not at home.

15. **Simple to keep an eye on**

The WiZ app has a tool that lets you keep track of how much energy you use. You can see real-time data, reports, and past data by hour, day, week, or device. This function helps you save money on your electricity bills by letting you use energy more efficiently.

16. **Compatible with Matter**

That's WiZ Connected 605675 Matter, the new system for connecting smart homes, that works with smart bulbs. This makes the smart home environment more reliable by making it easier to use, more compatible, and safer.

The WiZ Connected 605675 LED Smart Light Bulbs are cutting-edge and would look great in any modern home because they have all of these high-tech features.

Dimension

Usage

Setup and Connection:

- Screw the WiZ Connected 605675 LED Smart Light Bulb into a compatible socket.
- Download the WiZ app on your smartphone or tablet.
- Follow the app instructions to connect the bulb to your home Wi-Fi network.

Control Options:

- Use the WiZ app to adjust brightness, change colors, or set schedules.
- Enable voice control with Alexa, Google Assistant, or Siri for hands-free operation.

Modes and Presets:

- Select from various pre-programmed scenes or create your own lighting presets.
- Sync the light bulb with your daily routines, such as dimming lights for bedtime or brightening them for work.

Care and Maintenance

Cleaning:

- Ensure the bulb is turned off and cool before cleaning.
- Use a soft, dry cloth to gently wipe the surface of the bulb.

Placement:

- Avoid installing the bulb in damp or wet areas unless specified as waterproof.
- Use the bulb within its recommended voltage range (120V).

Wi-Fi Signal:

- Place the bulb within range of your Wi-Fi router to ensure reliable connectivity.
- Avoid using the bulb in areas with heavy interference from other electronic devices.

Troubleshooting

WiZ Bulb Not Connecting to Wi-Fi:

- Ensure your router is set to 2.4 GHz (WiZ bulbs do not support 5 GHz).
- Restart your router and try reconnecting the bulb through the app.

Bulb Not Responding to Voice Commands:

- Verify that the bulb is connected to the app and linked to your voice assistant.
- Re-synchronize the smart assistant in the WiZ app settings.

Light Flickering or Not Turning On:

- Ensure the bulb is properly screwed into the socket.
- Check that the power source is functioning correctly.

App Control Issues:

- Ensure your smartphone is on the same Wi-Fi network as the bulb.
- Update the WiZ app to the latest version.

Brightness or Color Not Adjusting:

- Confirm that the bulb is compatible with the desired adjustments (e.g., RGB mode).
- Reset the bulb by turning it off and on three times in quick succession.

Pros and Cons

Pros	Cons
Easy installation without additional hardware	Limited to 2.4 GHz Wi-Fi only
Wide range of color options	May require app updates occasionally
Voice control compatibility	Some users may find setup challenging

Warranty

The WiZ Connected 605675 LED Smart Light Bulb comes with a **2-year warranty**, covering any manufacturing defects under normal use conditions.
