- Not intended for use with emergency exit lights.
- Suitable for damp locations.
- To prevent early failure, product should be installed in operating environment ranging from -4°F / -20°C to +104°F / +40°C.
- **Caution:** Risk of shock – Turn off power before inspection, installation or removal Do not open the product. No user serviceable parts inside.

Never use with an extension cord unless plug can be fully inserted. Do not alter the plug

This device complies with Part15 of the FCC Rules and Industry Canada licence- exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received. including interference that may cause undesired operation. CAN ICES-005 (8) / NMB-005(8) Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device has been tested and found to comply with the limits for a Class 8 digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the device and receiver

- Connect the device into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/television technician for help
