Device Instructions

How To Install

1. Install two AAA batteries into the battery box.
- 2.

For non-iron surfaces, stick the add-on metal sticker to the surface. Then place Meter on the metal sticker.

- 3.

Get the SwitchBot app.

4. Create a SwitchBot account and sign in from the app's Profile page. Then add Meter to your account. Learn more at support.switch-bot.com/hc/en-us/articles/360038241053

Change the Temperature Unit

Press the button on the back of Meter once to change the temperature unit on the physical display. Learn more at support.switch-bot.com/hc/en-us/articles/360038241073

Reset the Device

Long press the button on the back of Meter for 15 seconds. Learn more at support.switch-bot.com/hc/en-us/articles/360037754854

Setting Alert

Setting Alert You could set up temperature/humidity alert with Meter and it will send notifications to your phone via Bluetooth. * If you are using an Android phone, a SwitchBot Hub Plus/Mini is required to use this feature. Learn more at support.switch-bot.com/hc/en-us/articles/360038241413

Remote Access

If you have a SwitchBot Hub Plus/Mini (sold separately), you could monitor Meter remotely and history data will be synced to SwitchBot server via the Hub device. * Enable Cloud Service first while using with a Hub Plus/Mini. Learn more at support.switch-bot.com/hc/en-us/articles/360038241053

Scene

If you have a SwitchBot Hub Plus/Mini (sold separately), you could create automation or scenes with Meter. You could turn on/off SwitchBot devices and home appliances triggered by temperature/humidity thresholds. Learn more at support.switch-bot.com/hc/en-us/articles/360037755654

Voice Control

If you have a SwitchBot Hub Plus/Mini (sold separately), you could get current temperature or humidity using voice commands with Alexa, Google Assistant, Siri, or more. * Enable Cloud Service first before using voice control services. support.switch-bot.com/hc/en-us/articles/360038241993

How to connect to Google Home
