How to play Bluetooth

1. When the auto stop switch is on and the Tone arm is in arm holder, then you can activate the Bluetooth. In Bluetooth mode, the indicator light is blue and fiashes quickly.
2. Put your other Bluetooth device (such as Mobile Phone or Personal Computer) into Bluetooth search mode.
3. Your device should show "CODI" in the list, and then select it for pairing. Waiting for some seconds and You will hear the voice "DI DONG". When Bluetooth pairing is successful, the indicator light is blue and remains lit The lovely songs on your Bluetooth device will be transferred to turntable to sound and control.

REMARK

This record player only support Bluetooth input,not support Bluetooth output. If you want to connect an external speaker,please use the 2-Male to 1-Male RCA Audio Cable to connect.

How to play LP
LP Vinyl Record Play Mode

NOTED:
– Remove the stylus protector.

1. Place the record on the turntable, use the 45 rpm adaptor if required.
2. Setthe speed selector to the correct position, depending on the record to be played.
3. Push the lift lever up to raise the tone arm from the arm rest, and then slowly move it to the record side. The turntable will start to rotate. (Turn off the automatic stop switch, the turntable will keep on rotating.)
4. Put down the lift lever to drop the tone arm and touch the record gently.
   Record player playing starts now.
5. Push the lift lever upward to raise the tone arm from the arm rest, the turntable will still be rotating but record player playing will stop. To continue the playing, the lift lever needs to be put down.
6. Adjust the volume to the desired level.
7. At the end of a record, push the lift lever upward to raise the tone arm and move it to the arm rest, and then put down the lift lever.
8. To stop manually, lift the tone arm from the record and return itto the arm rest.
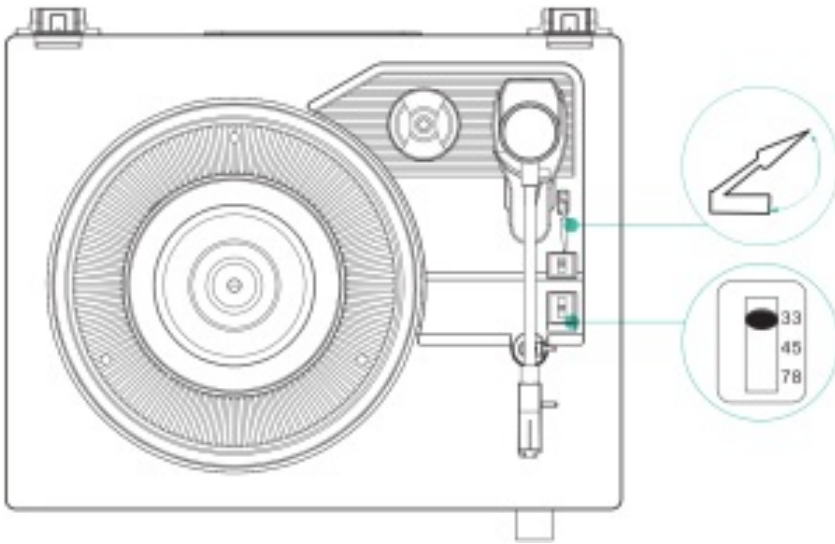

How to use Aux in

Audio JACK/ Aux In play mode: Put the tone arm back to arm rest, then connect the external audio device (such as CD player) through the AUX IN jack (13) on the back panel. Audio signal from the external audio device can be played through the system.
The player will switch into Aux In play mode automatically once insert the audio cable into the Aux In jack (13).

How to use RCA out

RCA Output Jack/ Connect to speaker: Connect the 2-Male to 1-Male RCA Audio Cable to the audio outputs (14) on the back of the turntable and then plug the other end into your stereo (active speakers only). Then the sound will be transferred from turntable to your lovely external active speakers. Warmly note, you can still hear the music from our record player and it was normal phenomenon among record players.

⚠️ **Note:**

1. When the auto stop switch is turned on,the turntable will continue to spin no matter LP playing or not.

2. When there is no play from Bluetooth or Aux in,the player will automatically shut down after 10 mins.Please kindly rotate the Power Button(12)back to the initial position,and restart the player after 5 sec.

Warning:
Do not manual lower the tone arm onto the LP disk,to avoid LP disk and stylus (9) damage!
