## FEEDER ASSEMBLY

**Take out the bowl**

- Take the bowl out and lift the hopper upwards, take out the Type-C charging cable, desiccant, manual, etc
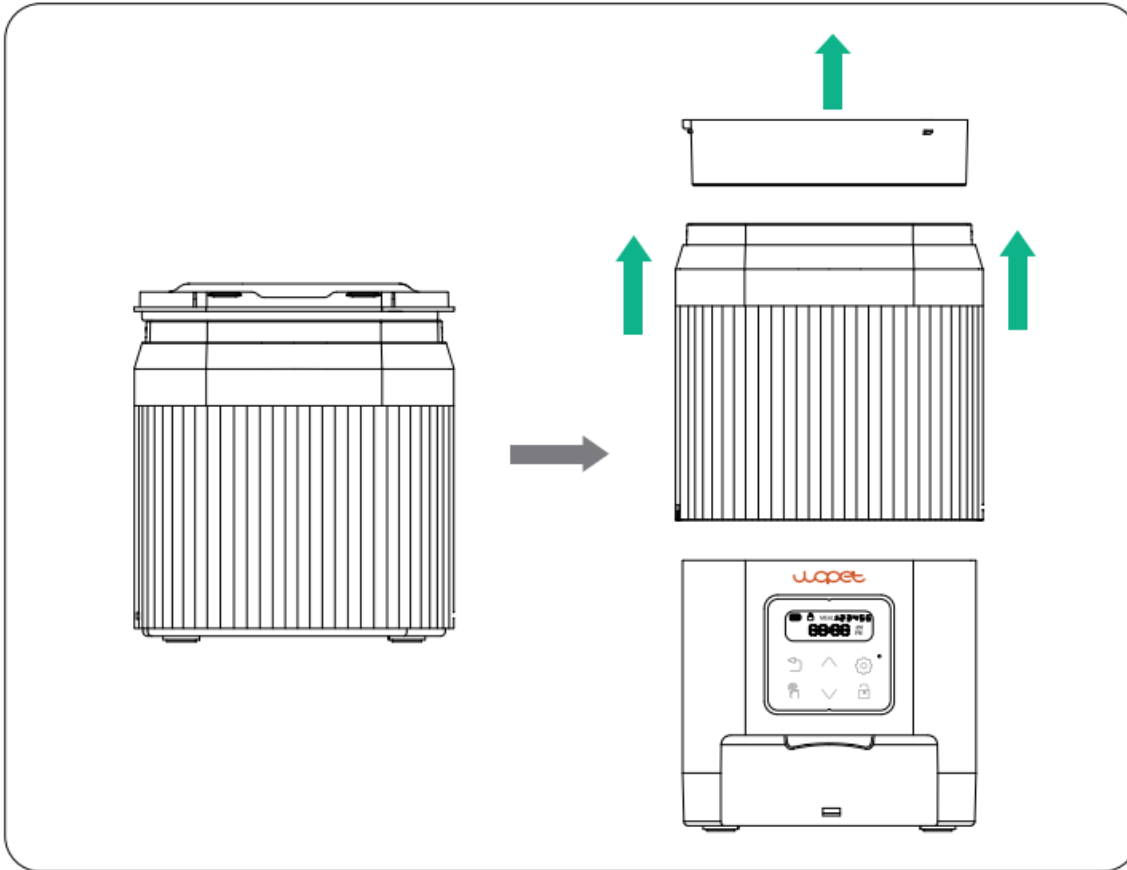

**Load in desiccant**

- Open the desiccant cap, put in the desiccant bag, and then close the cap.

**Insert batteries or power cable**

- Open the battery cover ① upward according to the indicated position, put in 3D-type batteries. Or, to use a DC power source, insert the Type-C power cable ②put the cable into the cable slot, and finally close the battery cover.

**Note**: The machine will automatically reset after 7 days of a power outage and all the data will be cleared.
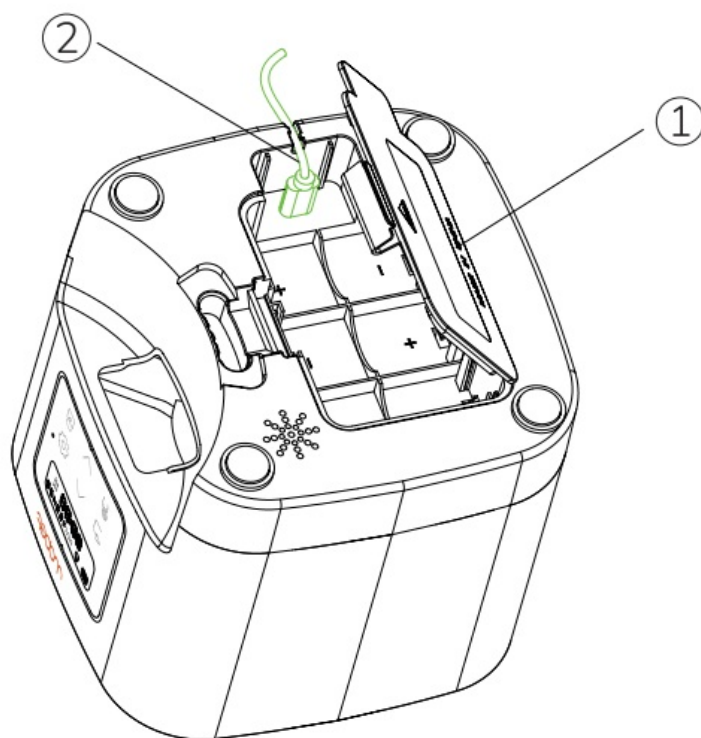

**Install the bowl**

- Install the bowl ③ into the base ④ in the direction of the arrow as shown in the figure below.

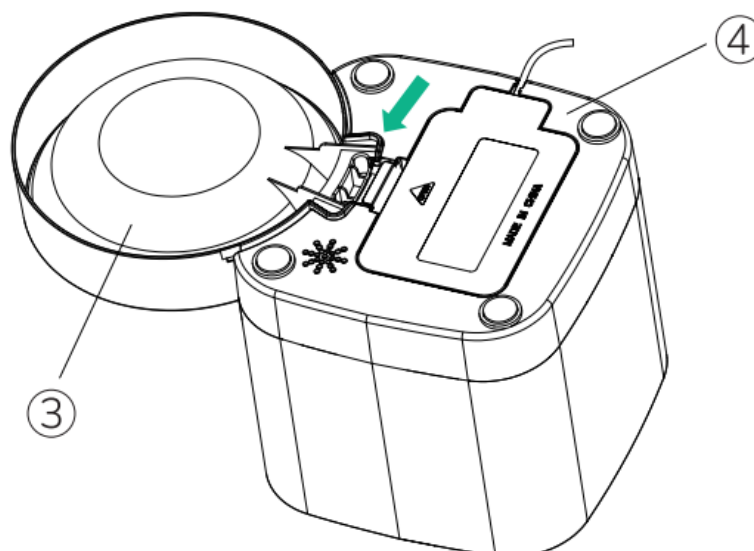

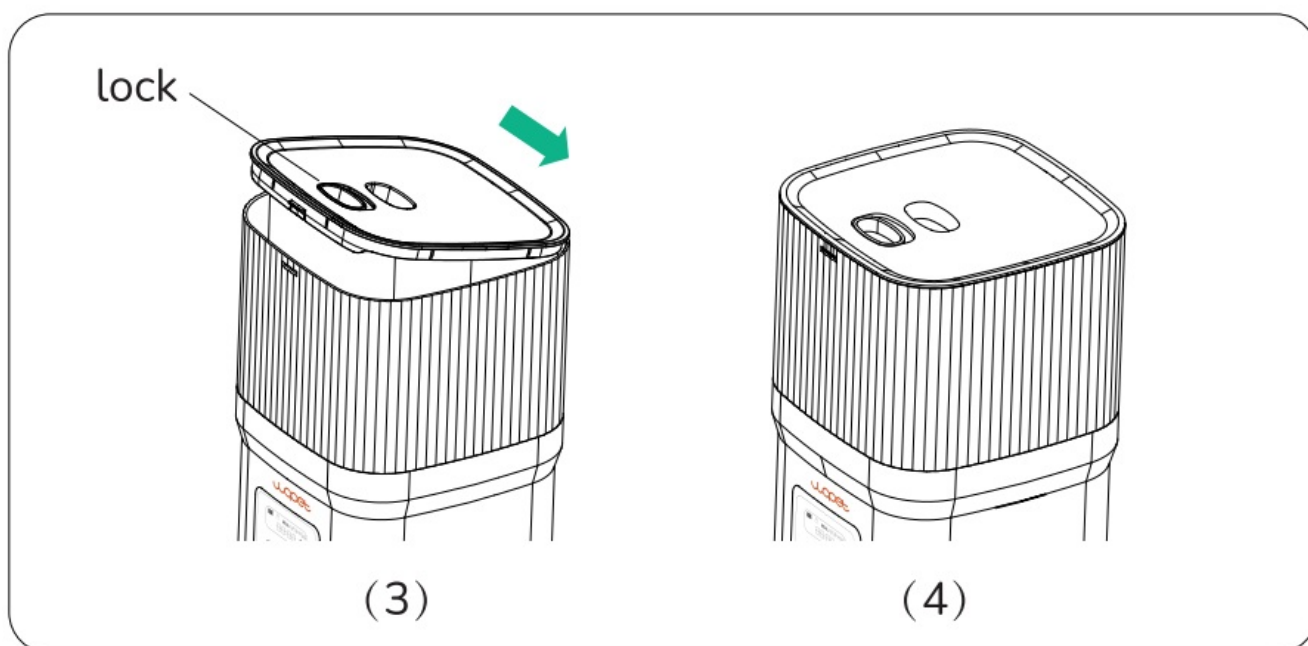

**Install the hopper**

- Install the hopper into the feeder base from top to bottom according to the arrow shown in figure (1)(2).
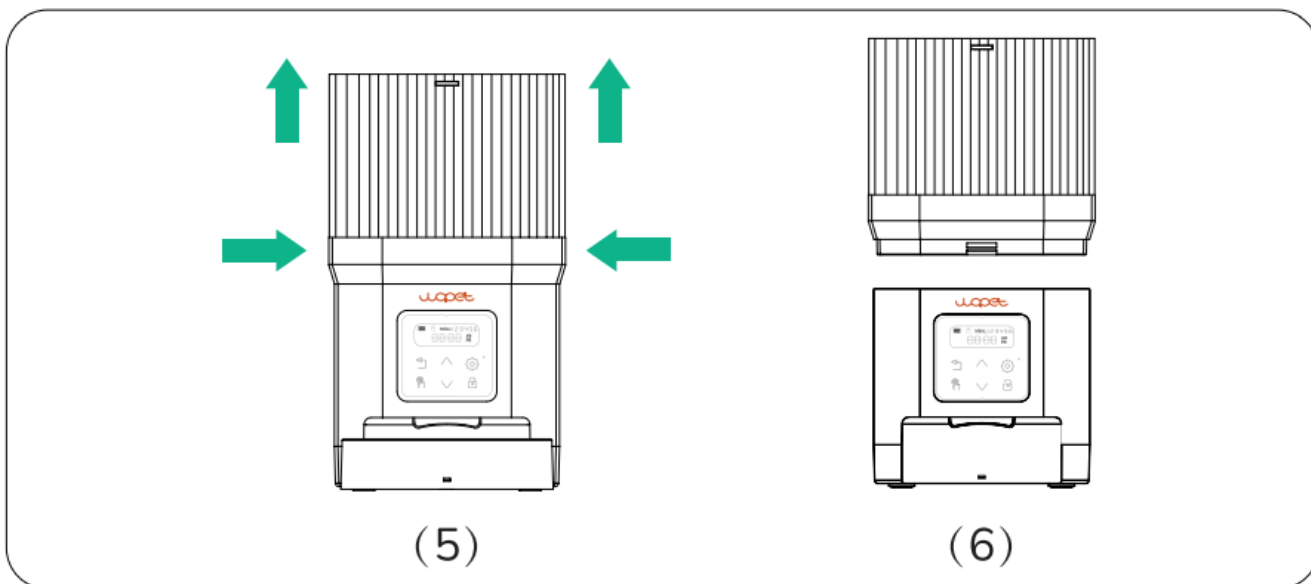

(1)        (2)

**Install the lid**

- First tilt the cover into the slot, as shown in (3), and then press "lock" to close the cover into place, as shown in (4).

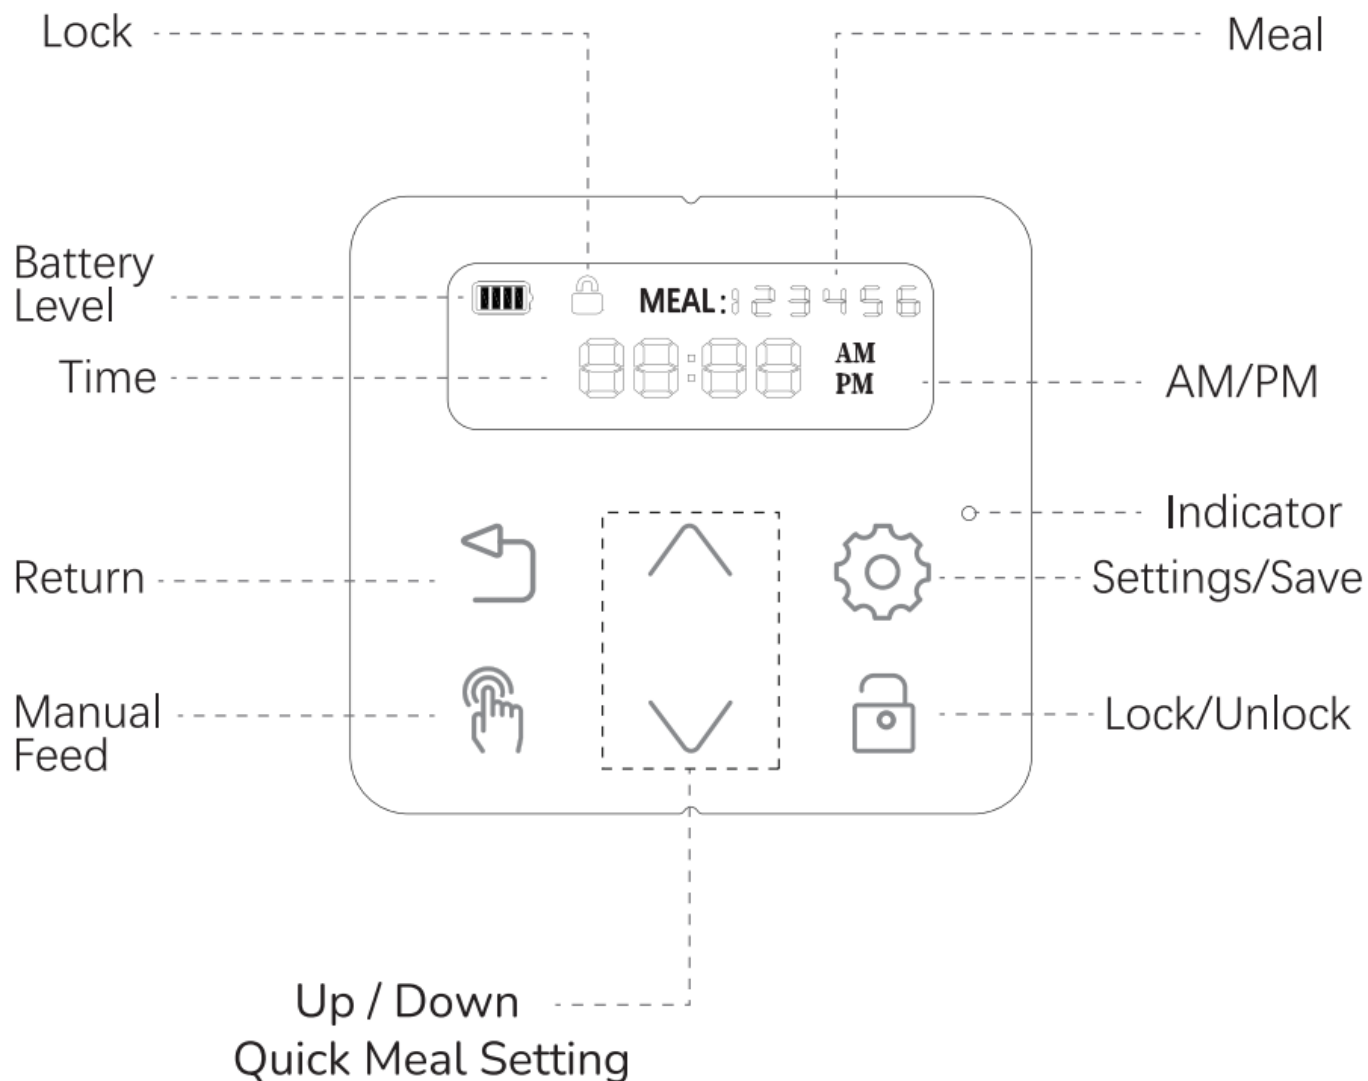

lock

(3)        (4)

**Clean the hopper**

- Fix the base of the machine, lift the tank upward and remove from the base as shown in (5)(6).

(5)          (6)
