Troubleshooting and tips

If the earbuds are not working correctly, turn them on/off.

Music function

From the left earbud to the right earbud to play music.

Voice assistant function

Voice prompts when you receive a call, give voice commands, open apps, etc.

Phone call function

If the charging case won't charge, make sure the supply is 5V>1A, that it is functioning properly.

The Bluetooth connection range is more than 10 meters the earbuds will disconnect with a prompt sound, indicating that the connection has been lost. If the connection is not re-established within 2 minutes, the earbuds will turn off automatically.

Make sure the earbuds are fully charged prior to the first use.

Recharging charging case

Place the earbuds in their respective slots inside the charging case to start charging them. The charging is complete when red light turns off.

Place the earbuds in the charging case and press the reset button of the charging case. After 6 seconds, the earbuds will turn on and off again, indicating the reset.

Charging earbuds

Plug USB end of charging cable into a DC 5V USB power supply.
Plug the male end of the USB-C type charging cable into the female port of the charging case.

When placing them in your ears.  Ensure the speakers are pointed upwards
