Using the Earbuds

Charge the earbuds

When you use the earbuds for the first time, remove the insulating films on the charging contacts of the earbuds.

1. Align the charging contacts on the right earbud with the charging pins on the right side of the case.
2. Repeat steps 1 and to charge the left earbud.
3. Close the case when the earbuds LED indicators are solid white.

Charge the charging case

1. Plug the small end of the USB cable into the Micro USB port of the charging case.
2. Plug the other end into a USB wall charger or computer (DC5V) that is powered on

Notes:

- It takes approx. 2 hours to fully recharge the earbuds.
- The earbuds and the charging case charge simultaneously.
- The charging case can be used as a standalone charger.
- When the charging case is out of power and you put the earbuds back into the case, the earbuds will not turn off automatically. Turn off the earbuds manually.
- When the earbuds are being charged in the charging case and the charging case is out of power, the earbuds will turn on automatically. To avoid unwanted power consumption, turn off the earbuds manually.
- When the charging case is out of power, the earbuds will not turn on automatically the time you take them out of the case.
- Turn on the earbuds manually

Trouble Shooting

Q: *Pairing failed.*

- A:**
1. Put the earbuds back to the charging case and make sure that they are off.
 2. Take the earbuds out of the case and they are automatically on.
 3. Wait that the indicator on the left earbud flashes blue and white alternately and earbuds enter pairing mode.
 4. Choose "225TWS" in your phone to pair.

If the pairing still fails, check the following points:

- Make sure the earbuds and your Bluetooth device are next to each other or within 3 feet and there are no obstacles between.
- There are no signal interference nearby (check the question "Connection is not stable" for signal interference conditions).
- Try to reboot your Bluetooth device.

Q: *Earbuds are connected to phone A, but I want to pair earbuds with phone B when I am not able to disconnect earbuds from phone*

A.

1. Turn off the earbuds by pressing and holding the MFB buttons for 4 seconds.
2. Press and hold the MFB buttons until the indicator on the left earbud flashes blue and white alternately and earbuds enter pairing mode.
3. Choose "225TWS" in phone B to pair.

Q: *Connection is not stable.*

A: Bluetooth signal is transmitted wirelessly and signals can be affected, which results in intermittent sound of earbuds, in the following conditions:

- The distance between the earbuds and your Bluetooth device is at the edge of the Bluetooth pairable distance.
- Transmitted signals encounter obstacles or human body blockage.
- There are high-power electronic devices nearby.
- There are other Bluetooth devices and are being turned on/off nearby.

To resume stable connection between the earbuds and your Bluetooth device, try to avoid the above conditions and do the pairing again following the steps in "Pairing Failed".
