

What's in the box?

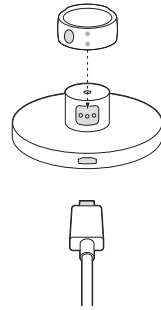

Charging your Echo Loop

To charge, plug the micro-USB cable into the charging cradle and the other end into a USB power adapter.* When placing your ring on the cradle, line up the charging contacts on the ring with the charging contacts on the cradle. Magnets will help position it for proper charging.

Pulsing yellow light: charging
Solid green light: charged

Check your battery level by asking Alexa, "What's my battery level?"

*5W or higher and safety certified for your region

Setup

Download the Amazon Alexa app

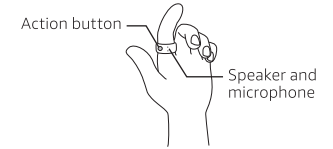

1. Enable Bluetooth on your smartphone.
2. Download the latest version of the Alexa app.
3. Click the button once to turn on your Echo Loop.

Set up your Echo Loop using the Alexa app

1. Tap the notification at the top of the Alexa app, then follow the instructions to set up your Echo Loop. If the notification doesn't appear in the Alexa app, tap the Devices icon in the lower right of the Alexa app to get started.
2. Set up your Top Contact, manage lists, location settings, and news preferences in the app.

Place the ring on your finger

Make sure it's easy to press the action button with your thumb.

Adjust the volume

1. To adjust the volume on your Echo Loop, just ask Alexa (click the button, wait for the short vibration, then say, "Change volume to level 10").
2. If you are using an iPhone with your Echo Loop, you can also adjust the volume using the buttons on your phone while audio is playing.

Talking to Alexa on your Echo Loop

Unlike your Echo device at home, you don't need to say "Alexa" to get her attention—just click the action button once. You'll feel a short vibration. Alexa is now ready to listen.

Hold your open hand close to your face to speak and listen from the microphone/speaker.

Using the action button

Click ● or press and hold ■ to access different features.

What you can do	How to use the action button
Talk to Alexa	● Click once, feel the vibration, then talk to Alexa.
Answer or end a call	● Click once.
Reject an incoming call	● Press and hold for one second.
Call your Top Contact Speed-dial your favorite person.	●● Double-click, and Alexa will connect the call for you. (To get started, go to Device Settings in the Alexa app.)

What you can do	How to use the action button
Access Siri or Google Assistant	● Press and hold for one second. You will hear the Siri/Google Assistant alert when they're ready for your command.
Power off Turn Echo Loop off to save battery power.	● Click once, then press and hold for three seconds. A long vibration will let you know it's powered off. (Click once to power on.)

Setup troubleshooting

If Echo Loop isn't showing up under Available Devices, click the button once to make sure the device is turned on. Verify that you have Bluetooth turned on in your smartphone settings, and try setting up your Echo Loop again. Ensure it has a full charge by placing it on the charging cradle until the light turns solid green. For more information, go to Help & Feedback in the Alexa app.

Designed to protect your privacy

Amazon designs Alexa and Echo devices with multiple layers of privacy protection. From microphone controls to the ability to view and delete your voice recordings, you have transparency and control over your Alexa experience.
