

SAFETY INSTRUCTIONS

Thank you for choosing this product. Please take the following instructions into consideration to ensure safe and proper use:

1. Only use this dehumidifier indoors; avoid outdoor use.
2. Place the appliance on a flat surface away from direct sunlight to prevent damage.
3. Keep the appliance upright to prevent water leakage.
4. Always unplug the appliance before cleaning or removing the water tank.
5. Don't use the power adapter in damp locations to avoid electric shock.
Keep it well-ventilated.
6. Keep the power adapter away from high traffic areas, never placing cords under rugs or near heat sources.
7. Don't use the appliance if the cord or plug is damaged.
8. Don't move or tilt the appliance while in use.
9. Keep air inlet and outlet unblocked for proper performance.
10. Never insert foreign objects into the air outlet to prevent damage.
11. Don't use sharp objects to clean or scrape the appliance.
12. Don't place heavy objects on top of the appliance to avoid damage.
13. If not in use for an extended period, drain the water tank and turn off the appliance.
14. Only allow persons 8 years and above, or persons with supervision, to use the appliance after they have been instructed on safe use and hazards.
15. Use the included power supply only.

By following these instructions, you will use your dehumidifier safely and prolong its lifespan.

⑧ SAFETY INSTRUCTIONS

- 1.On/ Off button
- 2.Light button
- 3.Night mode
- 4.Dry air outlet
- 5.Air inlet
- 6.Water tank
- 7.Water inlet

⑧ PACKAGE INCLUDED

Dehumidifier x1

Power Adapter x1

User Manual x1

⑧ SPECIFICATIONS

Model	TZ-C2
Rated Voltage	AC100-240V 60HZ
Rated Power	76.5-93.5W
Net Weight	5.3LB
Water Tank Volume	2000ml
Dehumidifying Capacity	Approx.1000ML/D (86°F, 80%RH)
Product Dimensions	8.27x5.55x13.78IN
Working Environment	59°F-104°F, >45%RH

④ HOW TO USE YOUR DEHUMIDIFIER

① ON/OFF Button

Tap '⏻' to turn on the dehumidifier.
Meanwhile, the LED light opens.
Tap '⏻' again to turn off the dehumidifier.

② LED Light Button

At startup, the dehumidifier has 7 lights that change continuously. When you see your favorite color, you can press '💡' to lock your preferred color. Press '💡' again to turn off the light, and press '💡' again to return to the 7 ever-changing lights.

③ Sleep Mode

Press '🌙' to activate Night mode, which will turn off the lights, reduce the sound, and shift the gear to a lower setting. Press '🌙' again to return to the normal mode.

NOTE: Night mode may have a weaker dehumidifying effect and take longer to dehumidify.

④ Red Light and Warning Sound

When the water tank is full, the dehumidifier will stop working automatically. During this time, the warning sound will emit 3 times, and the red light will flash. To resume regular operation, the water tank must be emptied, and placed back into the appliance correctly.

④ THE WAY TO GET A BETTER RESULT OF DEHUMIDIFICATION

- Close the doors and windows where you run this room dehumidifier.
- Keep the front air inlet and back outlet of this electric dehumidifier free from blocking.
- Run the dehumidifier when the temperature is between 59°F and 104°F and the humidity is over 45%RH.
- Best for small volume spaces such as dressing rooms, bedrooms, Basement, bathrooms, etc.

④ HOW TO REMOVE THE WATER TANK AND POUR OUT THE WATER

When the water tank is full, the dehumidifier will stop working and the light on the water tank will flash red.

Unplug the power cord, then remove the water tank.

Remove the cover of water tank and discard the collected water.

Assemble the water tank cover well, then put the water tank back into the unit.

⑤ QUESTIONS & ANSWERS

Q: What is the difference between the efficient dehumidification mode and the sleep mode?

A: The efficient dehumidification mode has a faster dehumidification speed, while the machine operates with a quieter sound in sleep mode. Therefore, it is recommend to activate the sleep mode when sleeping to provide a quiet sleep environment.

Q: Will this dehumidifier stop working under 59°F or over 104°F?

A: When the temperature falls below 59°F or rises above 104°F, the dehumidifier will not completely cease operation. However, it may result in decreased or zero dehumidification effect.

Q: Why is the dehumidification speed so slow? Only collect little water after 8 hours?

A: The electric semiconductor dehumidifier is great for home use due to its quiet operation and stable dehumidification effect, while compressors are noisy and meant for industrial use. The effectiveness of dehumidifiers depends on humidity, room size, and temperature. Higher humidity levels and smaller rooms lead to better performance.

Q: Can I keep it running all the time?

A: We do not recommend running the dehumidifier continuously. After 48 hours of use, please disconnect the power cord and let it rest for at least 10 minutes to improve its lifespan.

⑤ TROUBLESHOOTING

Problem	Possible Cause	Solution
The 'Red LED' is flashing first when power connected	The water tank is full	Empty the water tank
	The float gets jammed	Press the float
The dehumidifier does not work	The power supply is cut off	Check if the power adapter is plugged in
	AC power socket loose	Check the AC power socket and the power cord
	The air outlet is blocked	Maintain the minimum clearance at least 10cm around the dehumidifier when the appliance is operating

Note: If your problem is not listed, please contact Customer Support.

CLEANING & MAINTENANCE

Note: Make sure the product is powered off before maintenance.

- ① Clean the machine body with neutral detergent and rinse the tank with water to ensure its longevity.
- ② Dry the machine thoroughly with a soft cloth after cleaning.
- ③ Store the machine in its box after cleaning and drying.

WARRANTY

We appreciate your feedback and will do our best to guarantee your satisfaction. Within 1 year after your purchase, shall the product have defects, we will provide a refund or resend you a new one. Please email us with your order number or contact the seller on Amazon. Your inquiries will be taken care of as soon as possible.

This warranty does not cover normal wear of product and damage caused by misoperation of buyers.

This warranty only covers orders from authorized Amazon Store and our official website. We are not responsible for any purchases from other distribution channels.

This warranty does not cover damage resulting from any unauthorized attempts to repair or from any use not in accordance with the instruction manual.

If you have any questions or concerns, please reach out to us. We hope you enjoy your new dehumidifier!
