### xavax Hama Remote Control Instructions

#### Operating instructions

Thank you for choosing a Xavax product.

Take your time and read the following instructions and information completely. Please keep these instructions in a safe place for future reference. If you sell the device, please pass these operating instructions on to the new owner.

#### 1. Safety Instructions:

- Caution: The outside of the product may become warm to the touch when it is filled with hot drinks.
- When transporting the product, make sure that it is in a stable vertical position to prevent tipping and leaks.
- Filling the product with carbonated beverages can result in high pressure. Take this into account when unscrewing the lid.
- The product is not suitable for microwaves or dishwashers

#### 2. Use:

- Clean product with warm water and a mild washing-up liquid before using it for the first time.

- To ensure a long service life, avoid knocking the bottle.
- To prevent mould, store the clean product with the lid opened.
- Ensure that the drinks bottle is not filled immediately with cold water after filling it with hot water. The rapid temperature drop means there is a risk of breakage!

### 3. Warranty Disclaimer

Hama GmbH & Co KG assumes no liability and provides no warranty for damage resulting from improper installation/mounting, improper use of the product or from failure to observe the operating instructions and/or safety notes.
