XCSOURCE X6 Wireless Bluetooth Controller Gamepad

Product Information

Specifications

- Battery Capacity: 450mAh
- Compliance: FCC Part 15
- Radiation Exposure Limits: FCC compliant

Function diagram

Applicable instructions

1. This product adopts ergonomic design and feels comfortable.
2. It adopts Bluetooth 5.0 edr/ble connection, and the controller is connected with N-S and other hosts through Bluetooth.
3. This handle is applicable to switch, ps3/ps4, Android, IOS mfi/apple arcade, PC Steam and other platforms.
4. It supports shooting plus V3 app, which can be downloaded through various mobile application markets.
5. Support Android and Hongmeng hid standard mode, and you can play all kinds of game hall games that support HID standard mode .
6. Support mfi/apple arcade games in iOS 13.0 and above systems, and MFI games can also be found inShanwan MFI app download.
7. Support PS3 /ps4/switch game console to play games with Bluetooth connection.
8. Support Bluetooth connection of windows 10 system laptop and play X-input games.
9. It supports USB cable and can play pc/ps3/switch games.

- Due to the problem of mobile phone system, some mobile phones may not support this device.
- Our company is not responsible for the inability of some games to connect with this product due to irresistible factors such as software upgrade or source code change of the official game platform. Our company reserves the right of final interpretation.

Electrical parameters

1. Working voltage:DC3.7V
2. Duration of use: >20H
3. Charging voltage / current: DC5V/300mA
4. Battery capacity: 450mAh
5. Working current: <25mA
6. Sleep current: <10uA
7. Bluetooth transmission distance:<=8M 8, Standby time: 30 days at full power

SWITCH Mode

On the SWITCH host, select Controllers-> Change Grip/order, the SWITCH host pairing mode screen is displayed. Press L+R on the controller. At the same time, press R2 +

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

FAQ

- **Q: What should I do if I need to make changes to the device?**

A: Any changes or modifications should be explicitly approved by the manufacturer to avoid voiding your authority to operate the equipment.

- **Q: Is the device compliant with FCC regulations?**

A: Yes, this device complies with part 15 of the FCC Rules, ensuring it meets regulatory standards.

- **Q: How should I handle radiation exposure concerns?**

A: The equipment should be installed and operated with a minimum distance of 0cm between the radiator and your body to comply with FCC radiation exposure limits.
