xerox CARBR-01D Care AR Instruct Software

INTRODUCTION

CareAR® Instruct is a knowledge transfer application that engages users with visually immersive, self-guided instructional content, supported by interactive 3D visualizations and video content to improve your understanding of your Xerox® Printer and its features.

Download the CareAR Instruct app, to take a product tour, explore the ‘How to’ instructions, troubleshoot a problem, or contact support. CareAR Instruct provides access to self-support product content anytime, anywhere – right on your mobile device. Interactive 3D printer visualization enables visual guidance in virtual space linked with step-by-step guidance and supplemental support content to self-solve issues and become comfortable with features and functions more rapidly.

The app’s intelligent search function makes it easy to find and reveal additional information about your printer — all of which deliver confidence in the directions being provided. This enables faster access to instructions than using traditional manuals or scouring the web for relevant information. Complete routine maintenance tasks and solve common issues more quickly through an easy-to-use, engaging experience.

YOUR BENEFITS

CareAR Instruct offers self-support through a simplified user experience.

- Improve your experience with interactive 3D printer visualization and manipulation in virtual space for a better understanding of your printer features and capabilities
- Confidently interact with your printer by following visually rich, step-by-step instructions
- Quickly discover the most relevant content for your learning style using video, interactive 3D, and text-based content
- Improve productivity with easy access to support material anytime, anywhere
